Dog Obediance Tips... by Daniel Lesser

Training your dog can be time consuming and frustrating at times, but it's well worth it. Here are several tips that should help things go much smoother and faster... plus reduce the frustration both you and your dog feel!

Conduct "play training" where by the training tasks are made into fun games and your dog's play drive is used as motivation. There are a lot of really good books available on this type of training.

Intelligent dogs can also be stubborn, so you may have to outwit them!

While training your dog, you have to make him want to do what you want him to. You can't make him do stuff unless it is fun. Otherwise you are wasting both your time and his.

Try to make your dog's training so fun that it becomes his or her favorite activity. This will make learning much easier and more enjoyable.

Most dogs love to play! You can make your dog the happiest just by spending some time with them, giving your undivided attention each day. Without this, your dog will feel ignored, bored, or think they're in trouble. When this happens they're more likely to chew, tear things up, and not listen to you.

Dog Training Tips

By Fayola Peters

Dog training requires simple persistence to be a successful and delightful experience for you and your dog. Here are 8 dog training tips to guide you along the way.

1. Dog Training Tips − Get your dog's attention

Before you can start training your dog you first need to get its attention. You can do this by talking to him and offering him a small treat.

2. Dog Training Tips − Use the correct dog training supplies

If you have a well behaved dog a six foot training lead and a regular buckle collar will do. However if you dog is uncontrollable you should use a training collar. For the right collar size measure the dogs' neck and add 2 inches.

3. Dog Training Tips − For safety in vehicles

Before you introduce your dog to the inside of a moving vehicle you should teach him the 'down!' and 'stay!' commands. This ensures that he spends the ride on the floor of the vehicle.

4. Dog Training Tips − Elimination

When your dog got to go it got to go. To prevent your dog from getting busy on the carpet you should train him to eliminate on command.

5. Dog Training Tips − Praise

Always praise your dog when he learns a new command.

6. Dog Training Tips − Reprimand

Do not hit your dog! Any time your dog is engaging in bad behavior, use the opportunity to teach him the 'stop!' or 'no!' command. Using the 'stay!' command can also be effective in these situations.

7. Dog Training Tips − Play with your dog

This will help in building the bond between you and your dog.

8. Dog Training Tips − Do some dog training everyday

Don't rush dog training. Teach your dog one command at a time and don't move on until he gets it. A little dog training everyday is all that's needed.

Well that's it for my dog training tips. Enjoy training your dog and remember that it takes simple

persistence.
