Bridal Lingerie Buying Guide

By LingerieDiva

It's your special day. You've probably thought about it for years, maybe since you were a little girl.

But, how much thought have you given to the Wedding Night? When the wedding dress comes off, your bridal lingerie will tempt the groom (as if he actually needs any tempting) and help turn your special night into the romantic scene of your dreams.

Bridal lingerie has traditionally been white, ivory or cream colored. You can use pale colors, however never do this with a white dress as the lingerie could show through. If you have chosen a darker color dress, then darker bridal lingerie is fine.

When purchasing online be sure to order early to ensure the lingerie will arrive in time for your special night. Also, lingerie inventories and styles change often, so something you see one day might not be available the next.

Lingerie sets are always a good choice. They match a top (like a camisole or bustier) with panties or a thong. Remember, when you purchase as a set you also usually save money.

When buying your bridal lingerie, don't forget garter belts.

Bridal Lingerie Fit

Whatever bridal lingerie you choose, be sure to try it on with your wedding dress. Bridal lingerie, especially a bustier or corset, may change your shape and make your wedding dress look different.

Babydolls are loose fitting and look good on everyone. Bustiers and corsets are more restrictive and will shape your figure into more of an hour glass figure.

Honeymoon Lingerie

Remember, on your honeymoon all bets are off. You might consider something a bit more risque.

Perhaps a sheer or see−through babydoll or teddy. You should also stock up on sexy clothes for nights on the town.

Bridal Lingerie Checklist

1. Lingerie in white, cream, or ivory if you are wearing a white dress or choose a color to match your dress

2. Purchase early so the lingerie arrives well before the big day.

3. Check out lingerie sets in order to save money

4. Be sure your bridal lingerie fits with your wedding dress

5. Don't forget the extras − like garter belts

6. For the honeymoon choose whatever you want − go a little crazy

The modern dictionarys definition for lingerie is womens underwear or linen articles, especially garments. Today our choices of lingerie are not so limited.

Some women think of lingerie as only sexy panties, sleepwear, teddies, bustiers, or thongs. Lingerie also includes bras, comfy panties, slips, camisoles, girdles, robes, nightshirts, pajamas, nylons and more.

Womens lingerie is made of many different fabrics including cotton, nylon, satin, silk, lace, etc. We can also choose from an array of colors from pastel pink and lavender to more bold red and black.

So, with all of the choices and styles in womens lingerie, any woman can find something to fit her taste. Whether your lingerie of choice is thong underwear and teddies or cotton briefs and nightshirts, youre sure to find lingerie for women that is both comfy and flattering.
