10 Proven Ways To Accelerate Your Profits by Steve Li

1. Make copies of your web site in many different languages. This'll allow foreign speaking people to read your web site and advertisements.
2. Give your customers a surprise bonus for buying. When you give customers more than they expect, there is a good chance they will buy from you again.
3. Send greeting cards offline or online to customers on holidays. You'll get the chance to increase your orders by including your ad inside the card.
4. Market your products or services to your target audience. For example, don't try to sell a football in a cooking magazine.
5. Give people the option of buying other products or add on products when they decide to buy your main product or service at the point of sale.
6. Think of new ways to attract people to buy your products or services. You could add on extra free bonuses, delivery options, payments options, etc.
7. Give other businesses the option of selling your product. It could be a simple joint venture deal or an affiliate/associate program.

8. Follow-up regularly with all your prospects and current customers. When people see your ad more than once they are more likely to buy.

9. Learn sales ideas from reading and studying other business' advertising and marketing material. It could be ads, brochures, tv ads, sales letters, etc.

10. Educate yourself with new strategies to increase your sales. You could take classes, subscribe to e-zines and magazines, read books or ebooks, etc.

"How To Pull Massive Profits From Resale Rights Instantly"

By Ewen Chia

What's in your name?

I'm not trying to be funny here, this basic question holds the key to you making much more money with your resale rights business than you probably realized.

May I ask again then: "what's in your name"?

If you look at it, the main difference between your name and everyone's else is well, it's different...

And here's the vital key to pulling massive profits from resale rights you can take advantage of instantly:

..Just be different!

The resale rights business is very lucrative but extremely competitive, without doing something different from the thousands of other resellers out there, your chance of success will be unjustly limited.

Being different makes you stand out from among the rest, and give customers a good reason to buy from you, instead of the same 'me-too' crowd.

Here are three powerful ways to achieve the differentiation you need:

(1) Creating a new image

You'd NOT want to use the plug-in websites, salesletters and graphics that come packaged with many resale rights products.

Everyone's using them that's why.

10 Proven Ways To Accelerate Your Profits

The first and fastest way to become unique is to get new graphics for the product. Next you may even want to rewrite the sales letter if the original doesn't convert well.

Even a simple thing as changing the web background colour can bring increased results...

I did just that with "Net Gurus Secrets Revealed" and response literally skyrocketed

=>

What you'd want to do basically is:

Breathe NEW LIFE into both your new AND old resale products by simply changing their looks!

(2) Creating a new package

Another proven tactic is to create a brand new resale package, and this is entirely within your control and creatively.

Surefire methods to do this include packaging new bonuses, creating themed packages and combining audio and video tutorials...

There're many combinations of how to do this, and again it's up to your own creativity to come up with new ideas.

(3) Re-creating a `new' strategy

Here's something you ought to think about...

Many resellers simply forget the fundamental truth that everything comes down to good old marketing, yes even resale rights.

Apply all the marketing strategies you know to resale rights and I guarantee you making much more profits.

For example how many people bother to promote their resale rights products through articles?

Not many I can tell you.

Applying time-tested marketing tactics to your resale rights business can mean increased profits easily, so don't ever limit yourself.

Now this is JUST ONE technique you've learned here today, check out
