### 3 Quick And Easy Ways To Build A Profitable Opt In List

By Anton Cheranov

You finally realize that you need a good opt-in list. After reading countless articles and sought expert advices and have read many success stories of people creating a small fortune with opt-in lists you finally decide to have one of your own. Then it happens, you think you have known everything there is to know about opt-in lists and have followed their advices to the T and you still weren't able to make a profit.

In fact, you may be losing money. You maybe hiring writers to help you out, or there are some expenses incurred, even if you have a big list, but only a very small percentage actually buys from you, your still losing profit. You'll realize that after a few months when you see your statistics and sales figures.

So what could have gone wrong? Why have others succeeded where you have failed? The most common mistake is that you dived straight right in. You chose a topic where you think could be quite popular and would earn you money. This just not the case. Just because you wrote people from the list doesn't mean they are going to buy instantly.

Here I will offer more advice, for those who have started an opt-in list and have failed, you can rejuvenate your failed venture. For those who are starting, here are three quick and easy ways to build a profitable opt-in list.

1) Get your customers to trust you and your products first. Just launching your opt-in list would not make you an expert and a believable seller. Put many articles first before you start an opt-in list. Write about the topic you know and have started and used for your site. Try to put forums first to gain knowledge about your customers about their wants and needs and target those wants and needs.

Join forums from other sites as well. Provide expert advices and recommendations. When you feel that people trust you already, you will be able to start your own opt-in list. You can build a base as well with other forum users. You can ask them to join your list. Friends are always good customers. Put up a link to your site so that they may be able to see what you're business is all about.

The certain truth is, the money will only come in when the consumers and subscribers believe and trust in you. They want a product or service that could be a good exchange for their money. People are not going to buy something out of your recommendation if they don't know you.

2) Find a product or service that people want and need. Although it may not be your forte, if you provide a service and product that you have researched and learned about well, you can carry it on forward. Invest your time, effort and money that you could sell as well as the buyers or subscribers of your opt-in list can use.

While it is true that it is best to sell something that you have interest in, there are not many people who have the same interest as you if you decide to sell something that is not entirely popular or profitable. Do your research well and you would see the profits come in. Also provide your subscribers with promotional material that they could actually use and spread around.

3) Make friends with other opt-in list users. This is basically beneficial especially if it is someone who has already launched a successful opt-in list. These are people that have the experience in this venture and experience is still the best teacher. While there are many articles available for you in the internet to use, there is nothing like getting a first hand account from someone you trust.

Experienced opt-in list users will be able to tell you what to do and what not to do because they have gone through it. While different situations occur for different people, the general concept can still be very helpful. There are many things to avoid and these people will be able to tell you which ones.

Building a profitable opt-in list don't just happen overnight. There are many preparations and effort to do. Opt-in lists are built from scratch, as your list grows, you should also maintain the quality of your list. Keep it organized and manageable. Get or hire help if need be, just make sure that your subscribers are happy and satisfied and they will be willing to buy from you.

### **Success Guaranteed With Your Opt In List**

#### **By Ron Pioneer**

Some time ago I was thinking about the best and most foolproof way to earn great income on internet. I came to conclusion that success in internet marketing can be reached with my own opt in list. That is why I wrote this article.

In my search for ways to build my own successful opt in list I came to several conclusions how to build an opt in list that buys. In this article I will reveal you four ways to add subscribers to your opt in list and

profit from them(guaranteed) Read on...

The 4 ways to build your opt in list that I'm writing about you'll be able to use in your own opt in list building efforts. Read this article carefully because it may show you a way to profit from internet like you never thought you can before.

Here are the four ways how you can build your opt in list:

1) Buying or renting a list of subscribers for your opt in list.

You can buy subscribers for your opt in list or you can rent a list of emails for one mailing. This is the fastest method to build your opt in list.

2) Signing up for co-registration services.

With co-registration services other people build your opt in list for you. They usually cost \$0.10 – \$0.30 for a subscriber. With them you can expect 50 – 300 subscribers to your opt in list daily.

3) Build your list using articles.

Using articles is my favorite method to build my opt in list. You can write articles and give them to newsletter publishers to publish them. This way you gain instant exposure and have new subscribers sign up on your opt in list.

4) Using joint ventures to build your opt in list.

Joint ventures are an effective way to build your opt in list. When used right they can add hundreds of subscribers to your list daily. The best part – they are 100% FREE.

Each of these points illustrate how you can build your opt in list. There's really not a way you can NOT earn money from your opt in list. If you build your opt in list and keep relationships with your subscribers your opt in list WILL bring you income.

The greatest way I have found to build relationships with subscribers is offering them a free course. There are lots of places you can find FREE prewritten courses which you can offer to your subscribers.

The prewritten courses that you can send to your subscribers contain in context links to affiliate program / programs you are affiliated with. You earn income when the person follows your in context affiliate link and buys from it.

What I wrote in this article reflects my experience with my opt in list. I hope you find this article worthwhile and learned something from it.

Remember, if you build your opt in list and are persistent there is really no way how you can not earn money on internet. Keep that in mind and also... sign up for my list building course.
