5 FAST Ways to Explode YOUR Traffic! by Grady Smith

Here are some foolproof ways to create a rush of traffic to your site with 5 easy strategies you can use today.

1) Bring More Traffic To Your Site With One SIMPLE Word!

I've seen a massive rise in hits on my counter after discovering the magic word that draws people in crazed hordes! And the word that delivers for me is FREE!

By simply putting that one word in my ads, and backing it with something that the reader will really value, I've noticed a steady surge of traffic coming to my site. And even though I'm baiting them with a FREE offer, I'm still making a hefty profit from this technique.

2) Steal Other People's Targeted Traffic!

Whether promoting an ezine or ebook, any business can instantly benefit from the increased exposure of joint venturing with someone in a business similar to your own.

The secret? Find someone that has a large opt-in list that doesn't directly compete with your offer, but instead compliments it. Approach them and let them keep half the profits from sending your offer to their list, then do the same for their product through your list. It's a win-win situation.

3) Bring Hordes To Your Site For FREE When You Share!

5 FAST Ways to Explode YOUR Traffic!

By far writing articles is one of the best ways I know to bring highly targeted traffic to your site. And all it takes is minimal writing ability and a bit of knowledge that will interest your target audience.

Articles run about 500 words, and instantly advertise your product in front of thousands for free when only a few quality ezines decide to use your article.

Spend a little time writing an article or two. Edit them the next day and find places to submit. You can hit the jackpot

when you enter "Free Articles" in a good search engine.

4) Pay A Little For Lots Of Targeted Traffic!

Pay per click search engines delivers. And you can do it on a budget.

Check out <http://www.overture.com> for what is, in my opinion, the best of the best for lots of targeted traffic to your site.

And here's a tip. Have a sales letter that really converts visitors into buyers. That way, if you offer a product for \$29.00, and sell 1 in 30, you can get a high ranking by bidding \$.50 for each click, and walking away with about \$14 for each 30 visits. And it's possible to receive hundreds of hits in a day using pay per click search engines.

5) Only Pay For Advertising When It Makes You Money!

Nope, it's not a dream. You can bring tons of high quality traffic to your site and only pay when the traffic buys from you.

The secret? Affiliate programs. And if you're not using one right now then you're paying too much for your advertising.

With a few minutes of set up and promotion you can have your ads on hundreds or thousands of websites. And you're only going to pay when that advertising makes a profit for you.
