59–60 and Waiting to Die?

By Nancy R. Fenn

59–60 and Waiting to Die? by Nancy R. Fenn

What is the Saturn Return? I'm the nation's Saturn Return expert and I'm here to help you understand this all important period in your life. This is one of my missions in life. There is little in our culture that prepares us for the magnitude of the Saturn Return and its consequences, not just immediately but for years to come. Sad but true, if the first Saturn Return is not handled consciously, the second one can be fatal! But read on ... there's an exciting alternative.

You see, the Saturn Return isn't just for people between 28–30 years old. It is just as important when you have your SECOND Saturn Return. This occurs when you're between 58–60. I'm just as interested in reaching second Saturn Return people as I am those in their late twenties. As the nation's Saturn Return expert, I want you to anticipate the amazing changes that can come between 58–60 that usher in a fruitful and meaningful new stage of life. And I really mean this. It isn't about the "golden years" of advertisements. It's about something genuinely pure gold ... something akin to the metal the alchemists were looking for.

There is nothing in our culture that prepares us for this!! Many people between 58 and 60 are shoring themselves up with a stockpile of supplies, waiting to die. They surround themselves with provisions, people and other "evidence" of security for "old age". They turn life over to their kids -- ask them what's new and they tell you what their adult children are doing!! This is not living. This is waiting to die. Life is for the living. What about YOUR life? There will be new things on the other side of your second Return if you catch the wave.

You see, the second Saturn Return is intended to welcome in perhaps the most exciting cycle of all, a new cycle, the waning cycle. This is a cycle not of sitting around waiting to die but of GIVING BACK. I personally believe that mentoring becomes the #1 most significant and health affirming activity at this time in life.

My father mentored many people during his life. He was very successful in his career and a born teacher. He genuinely loved his work and he loved people. But there was one young man in particular he mentored intensely when he was in his late 50s and I remember thinking, "Why this is one of the

most meaningful relationships my father has ever had!" It was very inspiring for me to do the same and to look forward to that time in my life. I always have an apprentice and as I get older it becomes a rich experience. After all, our own kids don't want to listen to us anymore!!

If you're not 58 yet, begin to position yourself for this ... get a second Saturn Return mini reading for free and let's see what YOU have to look forward to.

If you're coming up on your first Return (between 28–30 years old) and you want an idea of what will happen, look at the people in your life who are between 58–60 — you work around them, shop with them, they teach your kids, maintain your car — look what happens to them.... Yes, some put themselves out to pasture and that's the end of it. But some make vital changes and begin an exciting new stage of their life. The amount of change that can occur at an age when our culture leads us to

believe we're just going to settle back with what we have and wait to die is just amazing!

If you're 58–60 and wondering what will happen at your second Return, look back 30 years ago and connect the dots. I can help you with that. As a rule of thumb, the worse it was then, the greater the magnitude of change, the more rewarding it will be this time around. Unlike the other planets, Saturn ALWAYS delivers the reward. Saturn keeps his promises.

Of course for people who are unconscious in some areas, there may be serious health issues to deal with around 60 as a result of the stress of having led a life which was not meaningful and now needs radical pruning. Still, it can be done. The result is renewed vitality and interest in living!! Truly, a new lease on life.

This is how Rob Hand describes the Saturn Return. I like the simple way he puts it: "Consciously or unconsciously, you are pruning your life of everything that is not relevant to what you really are as a human being. If this process is not happening consciously, you may experience a sense of loss for the elements of your life that are coming to an end now. However, do not dwell upon these losses, for they are necessary in order to clear the decks for the major period of action in your life. "

This statement is just as true for the second Saturn Return as it is for the first!

I offer free (yes!) mini second Saturn Return readings to get the word out. Email me for your mini reading today and let's get excited about YOUR future.

WAITING ON THE LORD

By Irvin L. Rozier

WAITING ON THE LORD by Irvin L. Rozier

Waiting On The Lord

Psalm 105.19 "Until the time that his word came, the word of the LORD tried him."

Waiting for the promise to be fulfilled. Waiting during trials, testings and tribulations. Waiting when all hope seemed gone. Waiting when family and friends misunderstood. Waiting while wrongly accused. By faith, waiting for God's purpose to be done.

Adam waited for Eve. Noah waited for the waters to recede. Abraham waited for Isaac. Joseph waited for promotion as ruler in Egypt. Moses waited for his leadership position. Shadrack, Meshack, and Abednego waited in the fiery furnace. Daniel waited in the lion's den. Job waited during his afflictions. John the Baptist waited in the desert. Paul waited in jail. Throughout the Bible, men and women have waited for God to do as He has said.

The trying of faith works patience. The LORD still has His people who are waiting for Him to fulfill His promises. Hold on until your time comes. God is never late; He is always on time.

Psalm 27.14 "Wait on the LORD; be of good courage, and he shall strengthen thine heart; wait, I say, on the LORD."
