\$77.15 in six months?

By Henry Gold

\$77.15 in six months? by Henry Gold

"In My early ventures, I was so excited with Multi-Level-Marketing, Network Marketing, and even Business Opportunity. About Six months ago, I was being offered a proposal from two persons on the street asking me if I would be interested in their businesses. So I made an appointment with them a couple days later.

That day, They offered me a business proposal and explained to me about the payment system that could generate 8% commissions on the first level and 2% on the second level up to ten level deep.

At that time, I was thinking about what mistakes I had made. I was being introduced to an unclear business proposal to sell website on the net. I was offered an 8% commission by introducing 12 people. "

>>> What did you do Henry?

I was working extremely hard and spending more than \$9,000 in six months excluding my phone bills.

Finally, I was able to build more than 700 members in my downline.... Which obviously, many of you think that I must have made thousands of dollars.

WRONG!!

\$77.15 in six months?

I got only \$77.15 in check.

With no doubt, the owner was telling me that I was one of his best associates. In fact, he used my name just to make himself more money. He was actually profiting for more than \$65,000 from my downline, while I could barely survive with \$77.15 and outrages expenses.

Those days are gone. I am lucky enough to see it through the confusion in E-business. However, lots of people may never see it at all. Today, I will

reveal you a real secret why do you need to consider Business opportunity.

Here are the right way you should do to make a REAL money online...

1. Start your own E-business

Before everything else, You need to put yourself in priority. I am telling you this because many people are just too afraid of building up their own businesses. Instead, they are using those Biz-OP as their main income stream.

>> Why it is not right, Henry?

By promoting other businesses before yours, you are just putting yourself into the trouble like I did in my early venture.

Regardless the size of the company, which do you think companies care most; your prospective or its own prospective.

If you are not the one who really cares about owning your business, who will?

>> Henry, it is easy to say about owning my own business... , but HOW?

The easiest way to earn money online is by providing information. I don't mean regular information which

\$77.15 in six months?

you already knew, but more into a specialized information.

>> Specialized information, what is that?

The purpose of Specialized information is to make somebody's life easier. For example: "How acupuncture can affect your health?"

If you have a special skill in acupuncture, you should start summarizing the way it works in a simple way so people do not need to go to bookstore just to get 1,000 pages of manual.

If you have not sure how to start, you can look into our member site about eighteen business ideas you can duplicate from me. If you already a member, you can

visit: <http://www.make1million.com/members>

If you are not, and interested to know more, you can visit: <http://www.make1million.com/intro.html>

2. Promote it the right way.

Most MLM businesses suggest you to tell your friends and co-worker to join your Business.

Do you think they will?

Think again. 90% of your friends may not be your targeted market.

On the other hands, Have you ever thought of E-mail harvester that send unsolicited email to 20,000,000 people for \$99. Do you feel it is a good idea?

Don't do it!

If you do, you will jeopardy your business in the matter of days. To know the truth about Bulk E-mail, you can click on:

<http://www.freebiesgroup.com/vip/fasttips/intermediate/2.html>

\$77.15 in six months?

>> What should I do, Henry?

Increase your targeted lists. How? Remember about a pop-up button that told you that you won a price? When you clicked on it, you needed to input your information in returns of my free E-book to you. That is one of the strategies that I used to accumulate 43,618+ of the subscribers.

I know it is taking a lot of times to do but, Think of the result. I am able to have more than 2,675 students. Have you ever thought where are they coming from? People who subscribed to my E-letter.

You have completed the first and second step.

Now.... the question is...

3. How can YOU make a consistent monthly income?

One webmaster told me that he was making \$2,000 on his first month, \$600 on the second month, \$275 on the

third month, and could barely survive on the last few months. He said to me that it is too difficult to make money online.

>> How different are your strategies compare to other webmasters?

50% of my sales are generated from people who join the membership. The other 50% is through the affiliate checks that I receive every month.

The good thing about affiliate income is, you still get paid every month whether you are working or not. This is also one of the right way to make consistent monthly income.

>> Can you tell me the formula?

By starting your own business first and connecting affiliate programs to your existing business are the steps to make consistent income online.

\$77.15 in six months?

As a conclusion...

Instead of telling you that I will probably make \$5,000 on next month, I am able to tell you that I will make at least \$5,000 even if I decide to take some vacations to Aruba.

For closing....

This information gives you some pictures on how you should be more careful about business opportunity. In addition, I want you to think about Biz Op as a link to your existing business (if you already started an E-business). You should focus more on other aspects.

If you would like to find out which online marketing strategies work well and which do NOT, look at my website guide "Make 1 Million". It comes with unlimited consultation. You'll find it in intro page of <http://www.make1million.com> site.

Success is yours,
Henry Gold
