A Bahamas Family Vacation Is The Required Prescription

By Craig Ritsema

The kids are back in school; extra curricular activities are demanding constant shuttling of kids from point A to point B and then back again; the family dog needs attention from a pet groomer in more ways than one and the house needs cleaning and repairs. So why in the world would you be thinking about a Bahamas family vacation at this time in your life?

This is the best time to be thinking about a Bahamas family vacation. Make plans now so that when the weather turns cold your family turns south for a tropical paradise bonding experience all families should enjoy.

The Bahamas are located off the coast of Florida, about one hour of traveling distance. The islands are located near the Atlantic Gulf Stream making the water temperature an average of 80 degrees year around. Starting to get the mental picture?

The beaches are white and sandy with more water activities than you can dream of. Swim with the dolphins, snorkel along the reef, or scuba dive with the sea creatures. Brilliant colors combined with sun and sea fresh air will create memories that cannot be lost.

If splashing in the sea with your family is not the required prescription for enjoyment then head over to Paradise Island and the Atlantis hotel in the Bahamas. Luxury accommodations are waiting to pamper you and your family for the most grand Bahamas vacation ever.

There is no shortage of activities on Paradise Island. The Atlantis Resort has a 14 acre waterscape filled with water slides sure to excite kids of all ages. Dad and mom can head over to the quarter mile lazy river ride and soak up the sun. Don't forget the sun tan lotion!

The Atlantis Resort has eleven different pools with smaller kiddies' pools as well. Plenty of Marina Village shops are nearby for those souvenir purchases.

If you are looking to book your Bahamas family vacation, check with your local travel agent. There are also many online Bahamas travel package options available from the major travel web sites.

A Bahamas Family Vacation Is The Required Prescription

Some of the travel packages will be all inclusive meaning that you can pay up front when booking your trip for things like meals and snacks and then relax during your vacation not having to worry about paying for these items. Just make sure when booking your package you know exactly what is included. The savings in cost may also cost you flexibility in choosing where you dine.

Shop around for airfare to the Bahamas. Most of the major airlines fly into Nassau International Airport, located in the Bahamas.

The best time to travel to the Bahamas would be from November to May. This will avoid the hurricane season and provide the warmest escape from your cold, northern winter weather.

Take time out now and plan your family vacation. It will be time well spent and long remembered.

Vacationing In Bahamas - Highlights And Tips

By Naldo Camarones

If you are planning on taking a Bahamas vacation in the near future there are a few things you'll want to consider. Here are some highlights and tips for you to plan your vacation to Bahamas.

The Bahamas is actually more than one place. It refers to a group of islands and each offers something unique to tourists.

The capital city of the Bahamas is Nassau. Nassau is one of the most popular destinations for vacations. It's a bustling and vibrant city rich in culture and people who visit there tend to make that their favorite stop when they return to the Bahamas.

Hotel accommodations for every budget are available. Dining options are endless and with the beautiful scenery you'll be certain to find many people spending most of their time near the serene and beautiful waters.

Water is not only part of the physical beauty of the Bahamas but it also is an integral part of the tourist business. There are many activities available for tourists that center on the water.

One is boating. Tourists can either take a boat tour of the Bahamas or rent their own boat for the day. It's a peaceful way to spend either a day or a few days with friends and family.

Another popular water activity in the Bahamas is golf. Bahamas is home to some of the world's most breathtaking golf courses. If golf is your game and you are headed to the Bahamas for a vacation then

A Bahamas Family Vacation Is The Required Prescription

consider researching the different courses available in the area you'll be staying. Playing golf in the Bahamas is unlike anywhere else in the world. It's really interesting and breathtaking.

If you prefer keeping dry land under your feet than there are numerous activities that will appeal to you during your Bahamas vacation. Gambling is as popular in the Bahamas as it is in Las Vegas or Atlantic City. There are four large casinos in the Bahamas and they all offer something different in terms of their aesthetic value.

If you'd like the grown-up ambiance of a casino without the threat of losing too much money than consider visiting a nightclub while you are vacationing in the Bahamas. Live music and dancing can be found in several nightclubs on the islands. After a long day of sightseeing and sunbathing, it can be refreshing and relaxing to enjoy a cocktail while listening to some authentic island music.

Whether you are planning a honeymoon, a family vacation or a business trip to the Bahamas, you'll find yourself falling in love with the experience. The people, the culture and the climate of the Bahamas keep people coming back year after year.
