**AMSOIL Synthetic motor oil, the best in synthetics by Sgt. Robert McGee /USMC**

AMSOIL was the first to make synthetic motor oils, and is the only company that recommends a 25,000 mile 1 year drain interval.

Since I have been using AMSOIL motor oil in my cars, I have noticed a real difference in their performance. My 1994 Nissan Sentra LE with 81,000 miles on it had a smoother idol and acceration, with a more quiet ride along with better gas mileage. I went from 32MPG to 34MPG!!! So far I have put 8,000 miles on my car's motor oil and it has never driven better.

I had my motor oil tested at an independent analysis lab and it turns out that my car's oil is cleaner than most Bottled water. Even after 6 months and 8,000 miles my car had no soot build up,no signs of breaking down, only 24 parts per million of iron deposits, my kinimatic viscosity Index at 100C dropped from a 11.7 to a 11.5 meaning that the oil had been virtually untouched.

I am 24 years oil, I live in California I have been in the Marine Corps for 5 years now. I am an Avation Calibrator Metrology Tech. I own my own business as an AMSOIL Dealer.

**Synthetics Best For Winter Stress**

**By News Canada**

(NC)—You're sound asleep. Absolutely dead to the world. Suddenly, a huge person bursts in, drags you out of bed, throws you out the window into a snow bank and screams at you to start doing push-ups. Right now, faster, faster, faster! So how do you feel. A bit stressed, maybe.

Well, that's how your car engine feels every time you turn the key. Because starting your engine from cold is just like the story above. Really stressful. And the colder it is outside, the more stressful the start-up and warm-up period are.

## AMSOIL Synthetic motor oil, the best in synthetics

This is one reason why synthetic motor oils are so popular in cold climates. Because synthetic oils are much more "pumpable". This means they flow better at low temperatures and circulate quickly when you start-up, even in sub-zero conditions. Some other advantages of synthetics are faster "cranking" speed when starting, and better fuel mileage.

Canada's top selling synthetic is Castrol Syntec, which contains an exclusive chemical that is attracted to metal, forming a bond with the components. The result is a protective layer called a "carpet", that cushions metal parts and reduces stress during the critical start-up period. For a small premium, oils like Syntec are a wise choice.

A wealth of interesting and valuable information on motor oils and lubricants can be found at

or other well known petroleum web sites.

– News Canada

provides a wide selection of current, ready-to-use copyright free news stories and ideas

for Television, Print, Radio, and the Web.

is a niche service in public relations, offering access to print, radio, television, and now

the Internet media, with ready-to-use, editorial "fill" items. Monitoring and analysis are two more of our primary services. The service supplies access to the national media for marketers in the private, the public, and the not-for-profit sectors. Your corporate and product news, consumer tips and information are packaged in a variety of ready-to-use formats and are made available to every Canadian media organization including weekly and daily newspapers, cable and commercial television stations, radio stations, as well as the Web sites Canadians visit most often.
