Announcing the Spazz-G, by Colours Wheelchairs: No Compromise Necessary

By Dr. Gene Emmer

Announcing the Spazz-G, by Colours Wheelchairs: No Compromise Necessary by Dr. Gene Emmer

Amsterdam, The Netherlands and Corona, California: Ultra-Light, Ultra-Hip, Ultra-Adjustable, Ultra-Durable, Ultra-Affordable, Ultra-Stylish, Ultra-COLOURS. The thought of a stylish and affordable wheelchair has been considered by many to be beyond dreams. Now Colours has changed this. The new SPAZZ-G is not only a totally adjustable and stylish wheelchair, but with a suggested retail price of only \$1,450.00 in the USA and approximately euro1450 in Europe (final price to be determined) it is priced to be fully covered by most world-wide health payment plans.

The SPAZZ-G features expandable seat width and depth, as well as adjustable positioning. The contoured frame is designed to be not only stylish, but also practical since it is easy to pull into the car and over the steering wheel. At 19 lbs (8.6 kg), including wheels, it is sleek, lightweight and easy to lift.

The SPAZZ-G has a main rigid axle tube that gives durability, rigidity and support. It has positive locking adjustable backrest, offering a full range of infinite backrest angle settings.

But best of all, it is not one of those mass produced, ordinary wheelchairs. The SPAZZ-G is different, because it's a Colours Wheelchair. Celebrate life in a Colours Wheelchair.

About Colours:

Colours is a leader in the rehabilitation industry for its design of innovative everyday, sport and pediatric wheelchairs. Colours' wheelchairs are lightweight, adjustable and customizable. At 14.5 pounds (6.6 kg) the custom-designed Zephyr (http://www.colourswheelchair.com/products/prod_zephyr.htm) is one of the lightest wheelchairs on the market.

The Boing! (http://www.colourswheelchair.com/products/prod_boing.htm) is the first wheelchair with four-wheel independent suspension. For more information: www.ColoursWheelchair.com. Colours is now expanding in Europe! European distributors interested in distributing Colours Wheelchairs are encouraged to contact Med Services Europe, Colours' European representative.

Further Expansions Underway at Colours Wheelchairs

By Dr. Gene Emmer

Further Expansions Underway at Colours Wheelchairs by Dr. Gene Emmer

Colours `N Motion, a leading U.S. manufacturer of innovative and lightweight wheelchairs, announced that it has relocated its operations to a larger facility in Corona, California. This announcement has come only weeks after the announcement of expanded sales operations in Europe.

John Box, President of Colours `N Motion, said: "Colours new production site in Corona is more than twice the size of our previous facility in Anaheim and will enable us to enhance our operations".

In December, Colours announced that it had selected Med Services Europe B.V. to build up its European distribution network. Med Services Europe will be responsible for locating, selecting and managing a distribution network in Western and Eastern Europe. European distributors of quality medical products interested in representing Colours Wheelchairs in their market are encouraged to contact Dr. Emmer, President of Med Services Europe, directly.
