**Are You Correctly Located And Faced For Prosperity?**

**By Henry Fong**

The title of this article may sound a little strange. What did I mean by located and faced for prosperity?

I must warn that this is not a typical business article. It has nothing to do with marketing, sales, productivity or even the internet.

It is about a branch of Chinese Metaphysics called Feng Shui. Feng Shui, which literally means "Wind Water", is an ancient meta physical science that studies how our surroundings can support us positively or negatively in our pursuit of our endeavors.

Business tycoons in Taiwan, Hong Kong and other parts of the world where there is a significant Chinese minority pay a lot of money to professional Feng Shui practitioners to help them get it right.

In this article I will show you how you too can apply Feng Shui to support your endeavors. Feng Shui is a very large subject with many systems and practices.

I will get you started with a very basic but effective Feng Shui formula called the "Eight Houses". In this system, all of us have a Kua number which is derived from our date of birth and sex.

Click the link below to to find out what your Kua number.

Depending on our Kua number we are further classified into one of two groups namely the East or West group. If your Kua number is 1,3,4 or 9 then you are a member of the East Group and if your Kua number is 2,6,7 or 8 then you belong to the West group.

For the East group, the favourable directions and sectors are North, South, East and South East while for the West group the directions and sectors are North West, South West, West and North East.

How do you apply this?

If you are a East Group person, you should try to occupy a room in the favorable sector of your office and home. For an East Group person this is either the N,S,E or SE sector.

Once you have found your favorable sector you should then orientate your desk to face one of these favourable directions. Once again they are North, South, East or South East.

If you are unable to find a room in your favourable sector, you should at least ensure that your desk is facing a favorable direction.

That's it.

What are the benefits of facing your favourable directions? According to the ancient classic, you should expect to encounter more money making opportunities, better health and relationships.

But what if you do not? What if you encounter nothing? Why? According to Chinese philosophy, your luck is dependent on a combination of your destiny, luck cycle, Feng Shui and the human factor.

So if you are going through a favorable luck period, maybe nothing will happen, but if you are going through a bad period, then you can expect to face monetary losses, poor health, bad relationships, accidents and break-ups!

What about sleeping? Should you sleep and face one of your favourable sectors and directions? The answer is yes but the facing is based on the crown of the head.

Let's say that you want to face North. You should then sleep in a North-South axis with the crown of the head pointing North and the feet pointing South.

Is that all there is to Feng Shui? Of course not but if you do what I have prescribed above, you have taken the first step to using Feng Shui (or the energy of the environment) to support you endeavors.

All the best.

## Are You Correctly Located And Faced For Prosperity?

**By Stephanie Yeh**

Have you ever heard the phrase, "Thoughts are things and words have wings?" This phrase is the perfect expression of the principle of prosperity. How you think about and talk about your level of prosperity is what actually manifests in your life. How many times a week do you wistfully say to your companion, "Oh, I'd love take a break and go to Mexico, but it's too expensive and I'll never be able to afford it"? Or how many times do you sigh enviously when you see someone else who has what you want?

Well, guess what? Every time you indulge in that kind of envious or hopeless thinking, you're sealing your own fate! According to ancient teachings on prosperity, everything that we say, think or feel is recorded in the akashic records, and then manifested into our lives. If you think about your level of prosperity as a barometer, every time you feel hopeless or depressed about your lack of prosperity, you slide down the scale a notch toward poverty. On the other hand, every time you say, "Well, I'm not there yet, but I will be able to go to Mexico soon," you zip up the scale toward prosperity.

We always think that our level of prosperity depends on outer circumstances such as a promotion, winning the lottery, getting a better job, or some other stroke of luck. Wrong! Our personal level of prosperity always, always starts inside, with our thoughts, feelings and words.

Old habits, especially old habits of poverty, can be really hard to break, so here's a quick way to remind yourself to be mindful. Each day, do something different to create a "prosperity reminder" for yourself. For instance, if you normally wear a ring on your middle finger, wear it on your index finger. The foreign sensation of the ring on a different finger will catch your attention and remind you that you're supposed to be conscious of something. When you notice the ring, notice where your thoughts are. Are you depressed about your boring job or are you looking forward to something prosperous in your life, no matter how far away it may seem? You can also put a small stone in your pocket, put a rubberband around your wrist or wear a silver chain under your shirt. It doesn't matter how you do it, as long as you create a noticeable "prosperity reminder" for yourself. We recommend you practice this exercise for at least 40 days to really set that prosperity framework firmly in your life. Have fun!
