Baby-shower Games

By Barbara Williams

Spice up your baby shower with some fun baby-themed games! A few games can make the celebration you throw for your baby fun and exciting. Games add a little zip to any gathering, and they help the attendees to get acquainted and feel at ease with each other. Here are a few examples of games you can play:

THE NAME GAME

Have your guests pick out two names for the baby. Ask them each to write the names they picked on a piece of paper (and tell them not to tell anyone else what the names are). Then tell them to try to come up with as many words possible using just the letters from those two names. Words should be of three letters or more in length. They need to come up with as many words from these names as possible. Give the guests a few minutes of time to complete this task.

When the time is up, have each guest read only the words they came up with - not the name, and see if all the other guests can figure out what names she wrote down.

Example: Ant - hint - mint - minty - lint Answer: Michael and Anthony

FEEDING TIME

Put a several cotton balls in a big bowl and place an empty bowl in front of it. One at a time, players should try to transfer the cotton balls from one bowl to the other, using a spoon, while blindfolded. Cotton balls are light, so it's really hard to gauge how many balls you are scooping up with the spoon. The winner of the game is the player that is able to transfer the most cotton balls to the other bowl within thirty seconds.

RICE BOWL

Half-way fill a bowl with plain, uncooked rice, then mix in some closed safety pins. Blindfold the players and have them, one at a time, use one hand to take as many safety pins out of the bowl as possible.

Baby-shower Games

The person who gets the most pins in 30 seconds is the winner. This may sound simple, but in reality the safety pins feel a lot like the rice.

BABY GUESTS

Have your guests bring pictures of themselves as a baby to the baby shower. Be very careful with these photos as they are important keepsakes. Lay each of these photos next to a number. Give each guest a list of the names of all the other guests and see if they can match the number of each photo to the right guests.

These games are only a few of the dozens of games you can play during a baby shower. These games are great for fostering friendships and making your baby shower a lot more fun and memorable.

Free Printable Baby Shower Games: A Wise Choice?

By Jennifer Adair

Free printable baby shower games refer to the printable materials that can be downloaded from the Internet without any charge. With these printable materials, the organizers of the party will no longer have to delve more on explaining to the audience the mechanics of the game. Plus, the games will look more presentable instead of getting some pieces of scratch paper with jumbled words and phrases that the guests will find it hard to understand.

Hence, with these printable baby shower games that can be downloaded for free, your activity will appear more coordinated and well-organized than just distributing pieces of paper to the guests to play.

Moreover, the parents would appreciate it more if they see that you take extra effort in getting printable baby shower games, even if it just for free than just get some sloppy baby shower games that can be obtained anywhere.

Free Baby Shower Games versus Free Printable Baby Shower Games As they say, the best things in life are free. However, not all free things are created equal.

Take for example the free baby shower games and the printable ones but still free of charge. They are both free and without any charge. But the two are distinct items that really differ in a lot of aspects.

Baby-shower Games

In most cases, free baby shower games do not look good in terms of graphics and presentation unlike the printable ones.

What's more, the baby shower ideas from the list of baby shower games that are given for free are not that innovative, creative, and usually cannot be understood.

Unlike the free printable baby shower games, they really have these colourful designs and easy-to-understand baby shower games.

Actually, free baby shower games are not that superior-looking. But the fact that it looks better than those that are given for free or is more presentable than those that are written in a sheet of torn leaf of a notebook.

Besides, if you are to look at it on the other aspect, free printable baby shower games are not absolutely free. You still have to invest a little on the ink that you will use. Colorful designs would entail many colored inks.

Consequently, when the parents see the effort and the little investment you have made in order to come up with really nice baby shower games, your work will be more appreciated.

What most people do not know is that free printable baby shower games are categorized as free items because you can download them in the Internet without any download charges. But still, it requires some budget for the ink for you to be able to print them.

Moreover, one of the best things about free printable baby shower games is that you can even customized them to suit the personality of the mother or the mood of the occasion before you print them.

In turn, it will give a more personalized look on the baby shower games and no one would ever suspect that you have just downloaded from the Internet.

Free printable baby shower games can be really useful. In fact, it is considered as the greatest ice breaker especially if the guests in the baby shower party do not know each other or are not acquainted with each other.

The bottom line is that the preference of whether to obtain free baby shower games or free printable baby shower games is actually dependent on the situation. This means that if there is no budget for the baby shower games, then, it would be better to acquire baby shower games that are given for free.

But if, there is a little budget even for the ink alone and the paper that will be used, then, it would be best if you will obtain free printable baby shower games.

Therefore, whatever you choose, the key point is that you have to use it in order to make the event livelier and more fun.
