## Buying Cheap Wedding Supplies

By Owen Andrew

While some people can afford large, opulent weddings, others have to stick to smaller events that are on a tighter budget. If you're the latter, don't worry—there are a plethora of resources online geared towards helping you throw a beautiful but inexpensive wedding.

Buying cheap wedding supplies is probably one of the most important elements to think about when you're planning your wedding. First, figure out a budget. Without a budget, you'll get lost and open yourself up to numerous problems.

Set a realistic budget and stick to it; this alone will help you immensely in planning your wedding. Get the help of friends and relatives, especially those adept at doing online research. There are some great deals to be had if you look in the right places.

One of those places is in the clearance section of online stores like [americanbridal.com](http://americanbridal.com). There are often excellent deals on wedding favors, decorations, invitations, and more. Another thing to look for is coupons or special deals, especially around holidays. Often, merchants will list coupons on their site to get you to buy; this works to your advantage because you're there to buy something anyways.

Another thing to think about is buying in bulk. This is the most cost effective way to buy things, especially wedding favors and similar decorations. If you want to do something personal, keep in mind that some stores offer personalization free with certain items, and others charge it as an extra service.

If the store is good, they'll have a section for you to browse by price, so you can find items in or near your price range. Examples of cheap wedding supplies under five dollars include candle sets, bud vases and card holders, candy, cookies, and other edibles, bride and groom miniature photo album favors, coaster sets, soaps, mini album, 'love' rocks, bottle stoppers, satin edged ribbon, and a bottle opener favor with free personalized tags.

For fewer than ten dollars, you can get all of the above, including items like themed place card holders, luggage tag favors, miniature cutlery, elegant, simple and decorated picture frames, and much more.

## Buying Cheap Wedding Supplies

Cheap wedding supplies under twenty dollars (jewelry is clearance) include items like a set of twelve packets of flower seeds, often offered in a heart, rectangle or other shape, an engraveable martini shaker, photo albums, cake and knife set, earrings, necklaces, flower girl tiaras, beaded clutches, gloves, a twelve set of decorated aluminum containers, perfume bottles, jewelry boxes, incense, money clips, purses, items sold by the dozen, and more.

Thus, there really is something for every budget, and there are numerous choices of excellent, cheap wedding supplies and favors. There are also excellent bulk options available that often save you a good amount. Stick to your budget, do the research, and find the best deal; you'll have the wedding of your dreams at a price you can afford.

### **Choosing and buying wedding favors**

**By Abigail Newsom**

History of wedding favors

Historically, the giving of wedding favors is thought to date back to old European aristocracy, who gave small boxes filled with sugar to their wedding guests. Since sugar was scarce in their time, it was considered the ultimate prestigious gift.

Eventually, the idea of wedding favors spread to the masses and took the form of five sugar-coated almonds wrapped in delicate cloths or boxes. The almonds were thought to symbolize longevity, fertility, health, wealth, and happiness.
