## Causes Of Divorce

By Rene Graeber

Back in the old days in Mesopotamia, marriages do exist in a different form such that divorces were documented because they happen. Some causes of divorce at these times take account of adultery. Though since polygamy was a standard practice at these times we can only speculate the reasons for adultery in divorce.

While early forms of marriage and the causes of divorce did exist even in the cradle of civilization, the practice carried on until this century. The causes of divorce is still the same though recent additions to its grounds have made marriage a rather easy exercise that can be cast and shape and die at will, especially by those abusive and deceitful spouses.

The most abused option, the one most recognized and tarnished ground is the No Fault Divorce. The no fault divorce allows either party of the marriage to sue for a divorce with reasons like irreconcilable differences as the grounds. By reading the decree alone you can see a great deal on how such loopholes can be abused. For instance: a husband can file for a divorce without letting the wife know, citing irreconcilable differences. It would be approved and the wife will be forced out of the home and closed from all the family finances. Likewise an adulterer wife becomes pregnant in an affair, and before the husband can mount a legal action, she mounts her own divorce that will allow her to take a portion of the properties owned in marriage, custody plus child rearing expenses of the children, and a portion for herself from the spousal support. To combat such abuses, some state allow no fault divorces only after when the couple has been living apart for several years and have been in marriage for a set period of time.

No fault causes of divorce had been a classic tactic for a deceiving spouse seeking financial advantages since its implementation, also known as "character assassination with a lawyer". And due to its easy nature to pull off, no fault divorce had been a factor for the increased rate of divorces in the US alone.

The opposite for no fault is the Faulted Divorce which causes of divorce includes extra-marital affairs, strained relationship (which can also be a ground for No Fault), emotional and physical abuse, middle life crisis, several types of addictions including alcoholism, gambling, and substance, and severe

workaholic attitude.

Unlike in the past when the churches hold the authority to null a marriage, causes of divorce are very few and at most strict. Since the inception of liberal ideas and the propagation of open-minded ideals and values, the causes of divorce have become more plentiful than the causes for marriages can ever be.

### **Divorce Articles: How To Get The Most From A Divorce Article**

**By Karl Augustine**

There are many types of divorce articles available on the Internet by a variety of authors. What's below will help you get the most out of the divorce articles here on this site and anywhere else. The below information about divorce articles holds true for most any type of articles on the Internet as well.

When people seek out divorce articles on the Internet, they usually want some sort of information that will help them solve a problem they may be encountering. Of course, the article seeker may just want to be informed about a certain subject for a variety of other reasons. In order for someone to get the most out of divorce articles, they should consider the following items:

#### 1. Divorce article validity based on the source:

When reading a divorce article, consider what the writer has in the way of credibility via credentials or life experience. Writers don't necessarily have to have advanced degrees to write a credible divorce article, they just have to have a true life experience that helps or otherwise informs in some way for the good of the reader.

#### 2. Divorce article goal:

If you're reading a divorce article and you find yourself wondering what they goal of it is, try to figure out what the writer's intention was when writing the article. Articles are written for a variety of reasons...to inform, to help someone improve their life, to sell a book, to sell a service or product, etc. Just because a divorce article is designed to sell a product or service as the end goal, it doesn't make that article less valid...if the intentions of the reader are also to help someone, and the reader gets something out of the article, chances are it is a worthwhile article.

#### 3. Secondary message of the divorce article:

Take a look at what the divorce article is saying behind the scenes. Assess what you think the divorce article is trying to get across that isn't always apparent at the first reading. Sometimes authors

## Causes Of Divorce

deliberately write so the reader has to think a little more than in casual reading in order to fully get the message.

If the divorce article is designed to sell a product or service, decide whether or not the divorce article's theme goes hand in hand with the product or service...does it add value or complement the offering? If so, decide whether you'd like to try the product or service or at least review the product or service to see if it is for you. A reader can tell a lot about the product or service owner by the way the article is written. Is it off topic? Is it detailed? Will the concepts explained in the divorce article apply directly to you?

When reading divorce articles or any other articles on the Internet, always remember that the article is there for a reason. If the author seems to have good intentions (revealed in delivering useful

information that you can benefit from) chances are the author may have other articles or information worth your time.
