Custom Golf Carts

By Carl Graeber

Customized golf clubs, customized golf balls, handcrafted (and of course customized) knitted sweater, customizing is a well-heeled man's hobby, or habit.

But why stop only with these. What about a custom golf cart. Now that's an idea. You can design that old cart into a hot rod you always wanted complete with a Jacuzzi and a wine bar. Ok I'm kidding on the last part.

Custom golf carts are long in the sports ground. They have been the result (or victim) of somebody else's creativity or lack of. Some do make use of golf carts to advertise and earn a hefty deal. Some also make it a showcase of status and success. Here are the better dealers of custom golf carts who also offer personalizing services to the carts you own.

Strech Plastics, Inc.

www.strechplastics.com

900 E. John Street, Suite J Banning, CA 92220 Call:

1-800-752-6799

Strech Plastics, Inc operates in Banning, California. Strech Plastics, Inc is the oldest industry dealing with golf cart accessories. Starting as a spare parts dealer, Strech Plastics has expanded since with over 50,000 square feet of workspace to operate as machine shop, welding shop, roto mold shop, window shop and a CNC and vacuum form shop, and with two assembly facilities.

Strech Plastic does indeed offer a specialized and professional custom golf carts service. Customization in billet accessories, steering wheel, dash cover, wheel or tires, the company has it and is very much qualified to do it.

Check their custom golf carts gallery; the selection speaks of skill, artistry, and cool concept:

LA Concept Car

www.laconceptcars.com

Call: 941-358-0440.

LA Concept Cars have been in the custom golf carts business for over 10 years. They provide highest quality parts and accessories for custom golf carts with best prices. Suffice to say they know all about custom golf carts and how to innovate one. How about Hummers as custom golf carts? Or better yet, a Buick Lucerne?

luxuryCarts.com

www.luxurycarts.com

98-1277 Kaahumanu St. Suite #152 Aiea, HI 96701 Call Toll

Free: 866-77-CARTS

A dedicated site selling custom golf carts,

<http://luxuryCarts.com>

has the most extensive selection on

the market. But that's not all of their services. If a customer doesn't want any of the designs in their selection, all they have to do is design and send the specifications to them.

Diversified Golf Cars

www.diversifiedgolfcars.com

5501 Commerce Drive, Suite 104 Orlando, Florida

32839 Call: 407-851-9353 or FAX: 407-851-5911

Diversified Golf Cars is Custom Golf Carts, enough said. Since 1978, this company had been a renowned distributor of parts and accessories of golf carts and also an industry that offers personalizing services to golf carts. The best part of Diversified Golf Cars is the price, with products manufactured in house and cutting off middlemen.

Golfers are known for seeking out the "magic bullet" that will improve their game overnight. I hope we agree there's no such thing, right? But, even the tiniest of changes in our game can make a huge

difference. To find out more visit the authors website at:

Used Golf Carts – Gas Powered or Electric?

By Chris Miller

Used golf carts essentially are available in two options, gas powered or electric powered. Each power option has its strength and weaknesses on the golf course or out in the field. Feel free to use the information below to help steer you in the right direction when buying a used golf cart.

Gas powered golf carts simply run on gas. Diesel gas or standard unleaded gas powered golf carts are available. One negative aspect against the gas powered golf carts is that you might need to carry around a can of gas with you incase your engine runs out. If this were to happen, you would simply refill the golf cart with gas and then be on your way. However, if you did not have an extra can of gas with you, you might find yourself stranded where you ran out. Used golf carts that run on gas can be to your advantage. Sure running out of gas is not something you want to happen. However, it is much easier to refill and get going again if you have a spare gas can with you.

Contrary to the gas powered golf cart, the used electric golf cart has a major setback if you run out juice. If you are driving up the fairway and find the electric golf cart no longer able to drive, you also find yourself in a major dilemma. Where in the world can you plug into to get a recharge? I'm not aware of too many golf courses that have convenience outlets placed throughout the course.

Used electric golf carts are much more environment friendly than used gas powered golf carts. Electric does not emit any pollution that you may find coming from a gas powered golf cart. An electric powered cart also runs much quieter than a gas powered cart.

These are just a few pros and cons of buying used golf carts, either electric or gas powered. Much more information regarding used golf carts and golf carts in general can be found at
