## Dating Advice For Men!!

**Dating Advice For Men!!** by **Ceyon Hinson**

We recently discovered a great book called "Double Your Dating" by David DeAngelo. In our opinion, it's the best place for a guy to start who wants to become more successful with women and dating.

We're really excited about it, because these days it's definitely not easy for a guy to find dating advice that works.

So what makes this book different than everything else out there?

Well, mainly David DeAngelo himself.

You see, David D. is a smart, educated regular guy. A regular guy who for the longest time, like so many others, couldn't figure out why he didn't have the success with women he wanted.

Several years ago, he made the decision in his life to do whatever it takes to get this whole "dating" thing down, no matter what the cost.

David read everything he could find about women and dating, and was disappointed to discover that for the most part, there was no quality information available for guys like him who wanted to learn.

Frustrated but determined, David decided to go straight to the source. Not to the women themselves? After hearing so many women say they wanted a "nice guy", then turn around and complain about their jerk boyfriends (who they had obviously chosen over many nice guys like him), he was convinced that even women themselves weren't exactly sure of what they wanted in a man.

## Dating Advice For Men!!

David sought out the few guys he knew who were unbelievably successful with women. You know, the guys in high school that you never stopped hearing about. He asked around and found more and more of these naturals, and sat down and picked their brains for every last piece of information he could dig up.

He was surprised to find that many of these guys weren't rich or handsome. In fact, several of them were down right broke and ugly! But they definitely had some kind of "power" that other guys didn't, and after hanging out with these guys for a while, David started to figure out exactly what it was.

It took some time, but before long David himself was getting women like crazy. His friends begged him to let them in on his secret? And sure enough? It worked for them too! David had put together a complete system for meeting and dating women that any guy could use. They convinced him that he had to write a book, and soon "Double Your Dating" was born.

In his book, David explains his step-by-step process for meeting and attracting women. Once you know it and master it, you can attract any woman you want, any time you want. And you don't have to be rich or handsome to do it.

David has finally unraveled the "bad boy" mystery and explains exactly why some guys "get all the chicks". More importantly, he explains how to develop the traits in yourself that drive women wild, and why you don't have to be a bad boy or a jerk to be successful with women.

There are simple things that you can do to separate yourself from 99% of the other guys out there, and David spells them out for you in plain English. He covers specific strategies and techniques for starting conversations with women, getting their phone numbers and email addresses, inexpensive and cheap date ideas, and how to take things to a "physical" level smoothly and easily.

The techniques in the book are practical and easy to use. There is nothing you will have to memorize or study. You can start using what you learn right away.

We really cannot recommend this book enough. "Double Your Dating" is an absolute must read for any man, no matter where you're at in the dating game.

## Dating Advice For Men!!

Online dating has become increasingly popular over the past several years. Every year millions of men turn to internet dating in an effort to meet more women without risking face-to-face rejection. Unfortunately, internet dating doesn't work very well for most men because the odds are so heavily against them.

According to a November, 2003 study by Jupiter Research, men are four times more likely than women to subscribe to an online dating site and twice as likely to browse, post, or respond to a profile. Obviously, those odds are stacked strongly in favor of the women.

When it comes to internet dating, to paraphrase James Brown, it's a woman's world.

This is quite a contrast from the off-line world, where attractive women are not approached nearly as often as men might think.

While doing research for my book, *Take Action: How to Meet Women and Get Dates*, I surveyed over fifty single women in their twenties or thirties about being approached by men and their views on being hit on and dating in general.

The most striking finding from the survey was that most women very clearly want men to be more daring about approaching them. In response to the question, should men be more bold in approaching women, 82% responded yes.

With a lot of effort and time, online dating can work for some men but it is not easy. You will probably have more success with internet dating by viewing it as a supplement to other methods of meeting women, instead of relying on it as your sole method. Also, use one of the larger services like match.com. You will need to use a shotgun approach and will therefore want to make sure you are in as target-rich an environment as possible.

But if you really want to meet and date a lot of women you will probably need to do it the old-fashioned way. Approach women in person.

As the old saying goes, the more things change the more things stay the same.

When it comes to meeting women, a confident man who can approach a beautiful woman and strike up a conversation with her will always do better than the 99% of men who cannot. Technology might change a lot, but it will never change that.
