Destination Europe: Reaching The Great Locales At An Affordable Price

By Barney Garcia

Traveling abroad was considered to be a luxurious affair for many. But with the expansion of the global economy and electronic flow of money, today everyone can realize their dream to travel to a different continent or country of their dreams.

Europe has been always the most sought-after tourist destinations for years. It is the distinctness in culture, historic monuments and people that attract thousands of tourists to these continents. Europe is a continent which stands out in every respect. Whatever your interests are, from monuments to museums, to ancient Roman ruins and night clubs Europe has everything in store for you.

Online booking of tickets has simplified the entire procedure. Today, special offers are given by most international airlines. You can also seek the services of travel agencies whose link to numerous airline companies can get you comparatively cheaper air fares than you could have imagined.

Get Flexible Get Smart

Flexibility should always be the major approach while securing cheap tickets for your favorite destination. When you have flexible dates and destinations, you can afford to take a trip around the world with the most reliable and conventional airlines. If you have the skills to surf the internet and know exactly what you want, then you can really make your dream travel destination a reality.

Before traveling to a particular destination, say Amsterdam, it is necessary that you have first hand information about the mode of transportation. Amsterdam is quite accessible whether it is by air, train or even by bus. When you catch a flight to Amsterdam, it generally halts at Schipol airport from where you have to take a train which hardly takes twenty minutes to reach the Central Station. A taxi ride is all you need to reach the main city and the cost usually depends on the distance of the exact location where you want to go. The bus services are available from Amstel station which is infact connected to the Central Station by metro. Nieuwmarkt and Waterlooplein are the two metro stations in the city. Tram, car, bikes are usually the normal mode of transportation in the city. Since the city is quite accessible, it is quite easy to get around it by cars, bikes, trams and even walking.

Almost all airlines offer exceptional service and the ticket prices are also quite affordable. Time and flexibility, as mentioned, should be the two major considerations while opting for a cheap European tour. Planned European tours usually do not give you the time to be your own. So try to find out a package that gives you a minimum amount of space for you to enjoy. People who love adventure will certainly not vie for a conventional package tour.

Whether it is romance of Paris or night clubs of London, the queen's residence or the peaceful alpine valley, Europe offers you so many varities to choose from. Whether it is plane, train, bus or car, Europe is quite accessible and easy to reach.

Finding Inexpensive Lodging In Europe

By Rene Graeber

Many first time travelers make the incorrect assumption that a European vacation is beyond their means, but this is often not the case.

One of the biggest costs associated with any vacation, including travel to countries in Europe, is lodging, but it is possible to fund budget accommodations that are clean, safe and centrally located.

One of the secrets to finding affordable budget accommodations when traveling to Europe is to check out the many bed and breakfast hotels that are common in Europe. The average bed and breakfast in Europe is much different than its American counterpart.

Whereas many bed and breakfast's in the United States are luxurious, and expensive destinations, Europeans generally regard bed and breakfast hotels as inexpensive places to stay, and they can be much more affordable than hotels in similar locations.

Most bed and breakfast hotels in European destinations are small, family run hotels.

In many cases, the family has their living quarters right on the premises, and the hotel generally

provides free breakfast with the price of the room.

There are many places to look for European bed and breakfast hotels, including the Internet, destination travel guides, Internet news groups and travel review web sites.

While some of the larger bed and breakfast hotels have their own web sites, many do not, and word of mouth is often the best way to find them.

There are also booking services that will book the bed and breakfast hotel for you for a small fee (usually around 10%). These booking services can be very valuable, especially if you do not speak the local language.

Even if you did not plan ahead, chances are you will still be able to find an affordable bed and breakfast hotel when you arrive.

The arrivals area of most European airports has at least one booking desk to help travelers without reservations find affordable accommodations. Just be sure you have a local map handy so you don't get stuck with a hotel in the middle of nowhere.

There are some important things to keep in mind when booking a bed and breakfast or similar budget accommodations in European destinations.

There are important differences in lodgings between Europe and the United States, and first time travelers to Europe are often caught unawares.

Below is a list of items to consider when booking lodging for your European vacation:

1. Your budget accommodations will likely be clean, but basic. In most cases the surroundings will not be fancy or luxurious, but they will be functional and clean.
2. The rooms at a budget hotel or bed and breakfast will probably be small, and closet space may be limited or even non-existent.
3. The least expensive rooms will have bathroom and shower facilities located down the hall, while more expensive rooms may have an in room bathroom and tub.
4. A room that has only a shower will usually be less costly than one that includes a bathtub as well. If this is an important consideration, be sure to ask about the bathroom facilities when making your reservation.
5. Rooms equipped with a double bed are generally less costly than those with twin beds.
6. If you are driving, there is almost always an extra charge for parking. Be sure to ask about the parking charge when making your reservation.

7. Be sure to buy a good map of the city you will be visiting, and make sure the hotel or bed and breakfast you choose is centrally located. It is often better to choose lodging that is within walking distance of several attractions you will be visiting, even if the room is slightly more expensive. Choosing a centrally located hotel or bed and breakfast will save you both time and money for transportation.

8. When booking your lodging, be sure the price you are quoted includes all local taxes and applicable fees.

A relatively inexpensive – but very nice and comfortable – destination in Europe is Mallorca. The author definitely prefers a Mallorca Urlaub
