Discover 3 Easy Ways to Promote Your Articles

Articles are probably the very best way for you to get some good, targeted traffic to your site.

Here is the second step in the "Two Step".

2) DISTRIBUTE YOUR ARTICLES.

- Send them to other publishers who are looking for fresh content.
- Place them in article directories. (A simple search will locate many,)
- Create an article directory on your site.
- Place them in autoresponders with follow-up messages.
- Send them out with snail mail messages that you are doing.

Set yourself a goal to write at least one article per week and distribute it. More often if you can do it.

What are you doing to promote your site? Where will you be a month from now...a year from now?

Why not put the "Two Step" into motion for your site? It's as easy as a waltz around the dance floor.
