Discover The Shocking Truth About Russian Women

by: **Marina Smiley**

Every agency on the Internet features young, captivating Russian girls on their feature pages. Beautiful to look at, alluring, smiling, just waiting for you to take them as a bride. As you look at these beautiful young women, you ask yourself, will these women be able to love ME, as the agencies promise!???

Are they as beautiful in person as they are in their photos, which are plastered all over the Internet? Well, the short answer to your question is.....Yes, they are beautiful, just as most young girls, all over the world, are and as all young girls, they dream about a handsome young man, coming to sweep them of their feet.

The key word here is YOUNG, so how can you believe a agency who promises you that these young women will be happy to marry a man much older then they are? What do you think? Is it possible? What about young women in your own country?

You need to understand that this is a business. A business promoting foreign women, willing to leave their country for a husband and new life. Every dating/marriage agency on the web has their share of fairy tales about these May to December marriages How some young thing just adores her old, aging foreign husband. Be very careful when you see these kind of testimonials.

If it was true, you would see a lot of these kinds of marriages in Russia. It is very seldom that you will meet a family or couple, where the husband is more than 3-5 years older. In fact, in Russia, people who are in the midst of trying to marry, are almost the same age, usually no more than a one - three year age difference.

Human nature being what it is, we all want to believe in some for of magic and the advertising business attempts to use our belief in magical things happening to us very much to their advantage. This scenario of young Russian women wanting to meet and marry older men is no different than believing in the advertisements that there are magic pills to make you lose 20 pounds in 2 days, or some

scheme to GET RICH in 24 hours.

If you are interested in a Russian woman, at least be wise enough and choose a Russian woman who will match your life interests and your age. Don't believe these advertisements that tell you that young Russian girls are happy to marry men much, much older than they are.

My site is on the top of many search engines for the search query "Russian brides", and as the result I receive lots of requests for interviews from journalists all over the world, and the question they invariably ask is: "Why western men look for Russian women?"

So let me once and forever explain you the reason why thousands western men flock to Russia in search for their love partner.

The answer is benevolently straightforward: they can meet in Russia a partner of better quality than is available for them at home!

They are NOT looking for a *Russian* woman - they are looking for a *better quality* woman!

But why it is possible?

I know what you think: you think it is because Russian women are desperate to escape from Russia.

Well, such thinking is pure ignorance.

Check the websites of American expatriates living in Russia (yes, there is a huge community of Americans permanently living in Russia, with their own newspapers and websites!) and you will confirm what I am saying: women who seek partners abroad do it because they want to meet a suitable partner that they failed to meet at home. They are not looking to immigrate. They are looking to find their love!

Hard to believe?
Read on, I will explain.

The fundamental reason for that lies in Russian demographics.

You know that men to women ratios differ dramatically between the countries.

For example, the latest figures from The Economist show that in United Arab Emirates there are 186 males for 100 females. It's clear the competition for eligible females should be stiff there. If you are a single male, The Emirates will be the last place in the world to look for an available woman – unless you live there, of course.

Now, what is the best place for a single male to score?
Let's look at the world statistics again.

The lowest men to women ratios are in Eastern Europe!

Countries like Russia and Ukraine are on the top of the list, with only 88 males to 100 females. The latest Russian census provided astounding figures of 10 million more women than men.

There the situation is exactly the opposite way around: eligible bachelors are more precious than gold.

So if you were a single male, exploring your dating options in Russia would make the perfect sense!

One wise man said: "Craziness is to do the same thing expecting a different result."

If you ever grow tired of your local dating market, or would like to expand your opportunities, check Russia: you will be amazed what kind of women can be available for you there!
