Eagle SeaChamp – Big Screen, Big Color GPS Fish Finder

By **Niall Pesci**

You get big screen, big color performance with a WAAS GPS–Chartplotter with Dual Frequency Sounder

The Eagle Sea Champ 1000C is a great tool. Yes, we can not say it any simpler! It offers you some of the best features in fish finding gear. You will be impressed with its precision and its high quality as well. Here, let's take a look at some of the features that makes this fishfinder something similar to the perfect tool. Here are some of the Sea Champ's features.

You can start by checking out the Eagle Sea Champ's awesome display. It is six inches big, just about the right size for easy viewing as you relax on your boat. It also has other features on the display that make it a good one including ultra bright for easy viewing in almost any type of light, 256 colors active matrix TFT LCD, high definition resolution and fluorescent cold cathode backlit screen and keypad. So, what does all of that give you? It delivers a clear picture that is easy to read. It gives you a picture that you can react to, meaning that you can see what type of fish are down there, the type of structure and even the size of the fish so that you can react and do what you need to, to get the big catch on board! It can be used in just about any light including at night!

Still, there is more. The Eagle Sea Champ also features some of the best in sonar. It has the capability of going 1500 feet down making it a great distance fishfinding unit. It's technology separates fish from nearby structures or the bottom which will help you determine not just that something is there but what is there. This helps you decide if it's something you should go after or not.

Still, there is much more. The GPS + WASS reception uses satellite technology to pinpoint your location to a few yards. This will help you to know where you are and where you need to go. You won't get lost if you turn around too many times. All in all, this Sea Champ will deliver for you all of the

features that you need to capture the fish that you need and want!

Go home with a full cooler thanks to this awesome tool!

Niall Pesci is a keen lakes fisherman who is always looking at new tools to help him catch more fish. Visit [Fish Finder Review](#) for more information and great deals about the

Change The Way You Look For Fish With The GPS-Enabled Humminbird 981

By Niall Pesci

The Humminbird 981 is a great tool to have for your next fishing trip. You will be able to take full advantage of the adventure with this fish finder. If you're out to find the fish, to score the biggest one in the lake, then you need to be equipped. That is just what you will get. Here are some additional details about this awesome tool.

First, your goal is to have the best view of the bottom, and then you will appreciate the picture like details that you'll get with Side Imaging Sonar. Why do you need this feature? By being able to see the bottom of the lake, you know what's hiding down there. You know where your prey is and you can lure it in then. This is a GPS ready fishfinder with full screen trackplotter which will help you find where you are and where you are going. Your fish finder is protected from saltwater and freshwater and if you do drop it in, it will float. So, no matter how tricky your adventure gets, you won't need to worry about ruining the equipment.

What does all of this get you? It gets you a fishfinding genius. It can help you to locate the fish that you want no matter where you are. By allowing you to "see" the bottom, you'll see just where your big fish is hiding. All this delivers for you the best results on your fishing trip. You'll walk away with a huge fish because your Humminbird will help you find it. You will marvel at the great features and the outstanding quality that the 981 has to offer.

Why do you fish? To catch the big one? To impress friends? You can do both of these things when you use high quality imaging fishfinders like this one. This Humminbird will enable you to have a successful fishing trip every time.
