E-books are for E-everyone!

By Terri Seymour

E-books are for E-everyone! by Terri Seymour

One of the best ways to build your online income is by writing & distributing ebooks. Ebooks can be a very effective tool for marketing your business and they can also be big money makers. Ebooks are also a useful resource for whatever information you are looking for.

There are a few things you should remember if you are going to write an ebook.

1. Just as your ezine should not be a giant ad, nor should your ebook. Be sure to fill it full of useful and valuable information.
2. Your ebook should be compiled in a simple, yet professional design. Make your ebook look good, but do not overdo. Make sure people can maneuver around the book with ease.
3. Take the time to do the research and write an effective and informative ebook. Your ebook will be circulating around the web and will say a great deal about you and your business.
4. Ebooks are a great giveaway for your visitors and/or subscribers. Everyone is looking for useful information which

can be found in ebooks.

5. You should always use your first ebook as a giveaway. This will entice more people to read your ebook, which in turn will get more people to see how good it is. When you do write your first ebook to sell, you will have already established your reputation for writing a useful and informative ebook.

6. You do not have to be a writer to write an ebook. Just as with articles, all you need to do is gather, organize and outline your information. Always add resources and links when applicable. A good ebook for giveaway can be as simple as a collection of your articles or the articles of other authors.

7. After you have written all your ebook pages and contained them all in a folder, you will need to compile them into the actual ebook. This you do with an ebook compiler and only takes a few minutes. There are some free compilers and some that are

not. I have checked out several ebook compilers and would personally recommend Ebook EditPro. It costs a bit, but was very simple to use and did a fast and effective job. Look for link in resource box.

8. After you finish your ebook, you want to start promoting it. Add it to your website, put it in your email sigtag, submit it to as many websites and directories that you can find, add it to your article resource box, announce it on message boards and email discussion lists where allowed, make a separate web page for it and submit the page to search engines, add it to your ezine welcome letter as a free bonus. The possibilities are endless if you use your imagination and let as many people know about your ebook as possible. Be sure to encourage people to also give it to their subscribers/visitors as a free gift.

9. Make sure you have contact links listed in your ebook so people can easily contact you or visit your website. Also, be sure to have your ezine and subscribe address listed.

10. Everyone can find ebooks useful not only for finding the information they seek, but for promoting their business and website as well as establishing a solid reputation. They are also big moneymakers and just about anyone can write and profit from a carefully and effectively done ebook.

Audio Books - 10 Frequently Asked Questions - Part 2

By Paton Jackson

The audio books era is already here. I keep hearing phrases like: Audio book rental, free audio books, audio book club, audio books on CD, online audio book rental services etc.

Here are the next five frequently asked questions about audio books (and the answers of course):

6. What kinds of audio books do you recommend to listen to? Listen to audio books that you would read. Meaning, if you like thrillers, listen to thriller audio books, if you are looking for children books, get children audio books etc.

Yet, I suggest you get to know more other successful audio books kinds such as language tutorials and motivation audio books.

7. Are the old fashioned books going to disappear? I don't think so. In fact, I still prefer reading books before I'm going to sleep. The experience is a different one, and some people still prefer the old books. Yet, I believe that the reading habits of most of the world's population will change in the next century thanks to audio books.

8. Can I find any book in an audio book format? Unfortunately not any book could be found as an audio book. Yet, almost any new book and any bestseller from the last century are getting published as an audio book. Most of the old books could be found in the format of books on tape and the new ones as downloadable audio books and audio books on CD.

E-books are for E-everyone!

9. How can I listen to downloadable audio books? You could listen to downloadable audio books using a media player on your desk top or your note book computer. However, most people use audio players like iPod to listen to downloadable audio books.

10. Where should I get my audio books? The best place to get audio books from would be one of the online audio book services.

Paton Jackson is the audio books' expert of 911 corp. Find the best audio books sources and more about audio books on
