Eniva: The Next Billion Dollar Home Based Business?

By Chris Brisson

Delray Beach, FL - While tirelessly searching for the perfect home based business opportunity, a

Florida man stumbles across a real, passionate, solid, and trusting eight year old company called the ENIVA Corporation.

After researching the company, the products, and the founders of ENIVA, Brisson soon realized the potential of this fast growing Minnesota based company: the potential to be the next billion dollar home based business opportunity.

As Brisson stated, "I knew I was on to something when I first tried ENIVA VIBE and felt immediate positive results within minutes. I've never had a nutritional supplement ever do that, especially taking just one ounce. I knew this was it!"

First, Brisson discovered the shocking truth about the nutrition industry and the real facts about the pills and tablets sitting in cupboards across America. As stated in the Physicians Desk Reference (PDR), "supplements in tablet or pill form are only 10% absorbed by the body."

While reading about ENIVA VIBE, Brisson fell upon a document that referenced VIBE in the PDR as having the highest Oxygen Radical Absorbance Capacity (ORAC) rating of any tested supplement on the market today.

Another scientific research report uncovered that VIBE is virtually 98% absorbable at the cell level because of it's angstrom sized minerals, manufactured using ENIVA's Solutomic™ Technology.

At that moment, Brisson heard a voice in his head speak the first golden rule when choosing a home based business opportunity, "the product must be unique and highly consumable."

His next goal was to learn about the founders...

To his amazement, Brisson realized that ENIVA was headed by two extremely passionate, young, and caring twin brothers: Andrew Baechler, Chief Executive Officer, and Benjamin Baechler M.D., Chief

Eniva: The Next Billion Dollar Home Based Business?

Medical Officer.

After speaking with Andrew Baechler on the phone, Brisson heard the voice again whisper the second golden rule when choosing a home based business opportunity, "choose a stable and solid company with a track record of success and growth."

ENIVA was doing just that. Within 2 years, the ENIVA Corporation went from having 25,000 distributors to having well over 250,000 in 4 countries including the United States, Puerto Rico, Canada, Mexico, and Bermuda.

Brisson stated, "Wow! I was totally impressed, excited, and relieved to come across a truly passionate, caring, and trustworthy team of leaders that I found at ENIVA. This is the exact company and group of people I have been searching for."

Brisson's next goal was to find if ENIVA possessed the third golden rule when choosing a home based business opportunity: leverage.

By combing his internet marketing expertise with the home based business opportunity ENIVA offered, Brisson then created an automated, easy, and duplicable internet system that allows anyone regardless of their age, race, gender, or disability the opportunity to earn a monthly residual income of hundreds and in some cases thousands of dollars working their business part-time.

Network Marketing Business Journal stated, "In fact, there are dynamics taking place so strong that experts predict, in the next 10 years, Eniva will create more millionaires out of average people than any company before."

Brisson encourages anyone of any age, race, gender, or disability to do your own research on this amazing company ENIVA and you will find the same amazing results as he did. This IS the opportunity of a lifetime and you do not want to pass this by.

A Dollar A Day

By David Venters

Eniva: The Next Billion Dollar Home Based Business?

what can you buy for a dollar a day, maybe a chocolate bar or a can coke or maybe some other perishable items of food.

But what about a car, a holiday or anything else that means a lot to you and your family.

The answer may strike you as odd but a dollar a day can lead to a new house, a new car or financial freedom. It can also give you a helping hand to start a home business.

Let me explain. For the equivalent of a dollar a day you can see yourself on the road to eradicate your financial problems. Maybe to keep up with all your payments on your home and car as well as to afford nice holidays you have to sacrifice time so that you have to work longer to earn more.

However imagine using someone else's time and money and receiving a monthly residual income. maybe with this knowledge of a constant stream of money coming in you can spend more time with your family or be able to play golf during the week instead of at weekends.

At the beginning I asked you how much you could buy with a dollar, wouldn't you rather invest that dollar into something worthwhile.

If you belong to a two tiered affiliate program or multi level program marketing you can invest a dollar and get books tapes and leads to help you grow your business.

Now are you beginning to see what you can buy for a dollar a day, can you imagine if just two people from the leads you get for a dollar a day join your business and then each month you recruit two more. Can you also imagine what would happen if the people who join you in your business did the same and recruited two people a month into your downline

Imagine how many people you would have in your business, it would sky rocket.

So the answer to my original question of what can you buy for a dollar is business leads, business books and motivational tapes.

David Lee Venters is an Affiliate marketing consultant and has been for four years.
