Establish Financial Security Advertising

By Carael Knight

Establish Financial Security Advertising by Carael Knight

So you've decided that maybe, just maybe, the rat race isn't for you. So what are your alternatives? I suppose you could quit society, move to a remote area and live off the land. But I'm going to go ahead and assume that's not an option. What is an option is starting your own home based business.

Millions of people around the world are already discovering the financial and time freedom that comes with owning a home business. Easier said than done, you say! Of course it is! Everything is easier said than done, but that doesn't mean you shouldn't try.

The fact is, although owning a business have it's difficulties and stresses, mainly due to the fact that you are in charge of everything and that is something most individuals aren't used to.

Three KEY advantages to own a business.....

1. Financial – On an average, home business owners earn over \$50,000 per year, with 20% making over \$75,000 per year. The average yearly take home for the average American worker is approximately \$27,000. As a home business owner, you could easily earn \$13,000 over the national average. And that's just the beginning. Those who run their home business wisely can multiply the average sum by whatever they want.

2. Lifestyle – Most people can't even imagine what it would be like to own their own business. For those who have resigned themselves to the rat race, it's difficult to comprehend the idea that they could design their own schedule, make more money from using their talents, and have the freedom to live life the way it was meant to be lived. But guess what...IT IS!

3. Practicality – When you think about slaving away for forty years to make someone else rich, the whole idea seems preposterous. How the majority of Americans let themselves be talked into this collective masochism is a mystery. What makes sense is for you to work from home, where you can be with your family, and spend every minute of your work time making money for yourself, not some faceless stranger. This is not a risky choice but it is the only practical choice.

Many people who are now making a substantial living with their home business started with a small venture in their spare time. These part time ventures often create a gateway to a complete career and lifestyle change. When you discover that you can actually make more money with a part time home business, working for someone else absolutely makes no sense!

Dare to start your own profit pulling business? Do you have the courage to create "Financial Security"? The time has come to step up and take CONTROL of your life!

## **Home Security Yard Sign. Convincing A Potential Burglar That Your House Is Protected.**

**By Ralph Winn**

A security system offers the the best protection against burglary and vandalism. When a potential burglar or vandalizing teenagers know you have a security system, they often pass over your home or business and move on to another. A security yard sign alerts a burglar or ne'er-do-well that you have a security system. Or, if a security system isn't in your budget or you don't want to deal with the installation process, a security yard sign placed in your front yard makes potential intruders believe you do.

### **How Does a Security Yard Sign Work?**

Convincing a potential burglar or neighborhood hoodlum that your house or business is protected with a security system or video surveillance can stave off an impending burglary or vandalism to your property. Whether or not you actually have a security system, one glimpse of a security yard sign often scares a thief away. Why would he break into or damage your home or business when there is a more vulnerable house or business down the street?

### **Where Should You Place Your Security Yard Sign?**

Effectively scare away anyone wanting to harm you or your property with a strategically placed and clearly visible security yard sign. The key to the effectiveness of a security yard sign depends on the placement. The following areas are ideal for a security yard sign: All exterior doors, Curb next to driveway, Flower beds and Garage door.

Homes and businesses that can be broken into or vandalized without interruption are a much safer bet for criminals. Advertising the presence of a security system or security cameras makes them believe your home or business isn't a good target.

Inform potential criminals that they are being watch or recorded or that the police will be alerted if they try to burglarize or vandalize your home or business. Choose a security yard sign from the many different types, brands, and sizes.

In addition to placing a security yard sign on your property, you can implement other low-cost home security items, such as dummy cameras and alarm decals. A home security yard sign is an inexpensive alternative to protect your home.

Ralph Winn has over 32 years of experience in the security industry. Throughout his career, he has developed cost effective security programs for numerous small, medium, large commercial and

government properties and for many nationally known corporations.
