I have over 15 years in the Contact Center arena. Both running very large call centers to help in the development of solutions for the Mortgage industry, consultant and more.

Benefits of Using DialResults Remote Agents

By Richard Logan

Benefits of Using DialResults Remote Agents by Richard Logan

Benefits of Using
DialResults Remote Agents

1. Lower operating costs.

Agents working on a DialResults IP enabled predictive dialer solution from home means a much smaller contact center facility is required -- for major cost savings to a contact center's business solution.

Lower telecommunications Cost

2. Routing calls over the DialResults IP network will dramatically reduce a contact centers costs for both inbound and outbound

Seamless service.

An agent's physical location must be transparent to everyone: agents, callers, and called 3rd parties. DialResults also allows the contact center to maintain high-quality service, when one

contact center location is closed or reaches its call handling capacity, calls must be automatically routed to another location.

Easy administration.

Separate sites can be difficult to administer. DialResults contact center solution IP predictive dialer address this issue of ease of use and administration.

Richard Logan has over 15 years in the call center industry both in call centers and work with technology for call centers
