FOOD ON THE TABLE

By Irvin L. Rozier

FOOD ON THE TABLE by Irvin L. Rozier

Food on the Table...story number 22 out of 50 from my book, My Walk with the Lord

Psalm 37.25 "I have been young, and now am old; yet have I not seen the righteous forsaken, nor his seed begging bread."

During a period of unemployment the money was scarce. I was a single parent with three growing children to feed. As I read my Bible that morning, the above scripture spoke to my heart. We were down to a couple of cans of beans and some grits. I went to the Lord and asked Him to send us some money to buy food or send us some groceries, somehow, some way. I told no one except the Lord about the extreme lack of food.

That evening, the children and I went to church. It was a good time of worship of the Lord. When the service ended, most of those in attendance gathered around the altar and made our requests known to God. As I rose from my knees, I had the peace that passes all understanding and the blessed assurance that everything was going to be okay. This event happened right before Thanksgiving.

When we arrived home, one of my daughters entered the house, and I heard her shout, "Praise the Lord!" I went in and looked on the table. It was practically groaning from the load of groceries piled on it. I opened the refrigerator and it too was full. God had moved on someone to help us in our time of need. That person has a great reward in Heaven! This event not only increased my faith but helped my children's faith increase. God is faithful!

Luke 11.3 "Give us day by day our daily bread."

Tips To Consider Before Buying a Poker Table

By Oddvar Pettersen

Poker tables come in all shapes, sizes and prices.

Folding poker tables are reasonably priced and can easily be stored away or brought with you to the cottage or a friend's house.

Racetrack poker tables are probably the most popular tables on the market.

They are a great choice if you are buying a permanent piece of furniture for your gaming room, and the cloth/felt can easily be replaced.

Octagonal poker tables made out of oak or birch look nice as furniture and can also be used as a dining room table.

The drawback with the octagonal all wood tables is that they scratch easily and the cards are harder to pick up than on felt tables.

Standard all felt poker tables give you more playing surface and are in most cases cheaper and more poker friendly than both the octagon and racetrack table.

The felt on your new poker table should be of sturdy quality.

There are several types of felt to choose from and the most expensive is speed felt.

Many poker table owners swear to velveteen and will never get anything else, but wool felt should also be taken into consideration.

Moneyboxes are very practical and they have to be placed near the dealer slot.

A very important factor to consider when buying a poker table is to decide if you want cup holders or not.

Some feel that there will be more problems with players spilling drinks when they can place their drinks in cup holders on the table.

Many poker table owners use the three Cs rule during poker games.

Cash, chips and cards only. No food or drinks allowed on the table.

Others believe cup holders will reduce the number of spills on the table, because if the player's drinks are not in a cup holder, then they probably will be on the table felt.

FOOD ON THE TABLE

If you decide to go with cup holders, than you should by a table with cup holders that are 2 3/4" in diameter and 3" deep.

These measurements are perfect for both beer bottles and cans. Any deeper and the players will have a hard time getting the cans out.(Especially after having consumed a few beers).

Getting a table with the cup holders underneath the table or in the armrest of the chairs is also an option.
