## Finding a Wedding Planner

By Briana Liebmann

Are you in love with the dream of the perfect wedding yet overwhelmed with all the details and responsibility put upon you to plan your dream day yourself? A reliable wedding planner can help make the day you'll always remember a wonderful experience instead of a memory worthy of a nervous breakdown.

Also called wedding consultants or coordinators, wedding planners are the bride's right hand down to every detail in the ceremony and reception. She can be there the moment after the ring is on the finger to the last guest at the reception. The bride has the choice to give as much or as little responsibility to the planner as she desires.

But how do you know if you should hire a wedding planner? Here are a few examples where a wedding planner can help:

The first and probably most important aim of a wedding planner is to relieve as much stress for the bride as possible while still making her feel in control of the event.

If you are planning on a budget, your wedding planner will be sensitive and also be capable to balance the expenses. A good planner will prioritize what needs more or less monetary attention. Also, you will more likely go over your budget if you plan alone. Your wedding planner will not only make you stick to your prearranged budget, but also knows many vendors and can find special deals you would otherwise not be able to attain.

A wedding planner will be flexible enough to accommodate your dreams for your perfect wedding, they should have the creativity to both encourage and execute your unique ideas. This is your wedding. You know what will make it memorable, and your planner should help make this dream come true. However, these professionals know what is and is not acceptable for a wedding ceremony. A good wedding planner will be honest about your not so great ideas such as the best man's beer funneling contest.

If the ceremony is planned out of state, a planner in that area will be familiar with geography and will know the best vendors for that area.

One of the most important qualities of your perfect wedding planner is a shared sense of taste. Ask her what type of weddings she likes and ask to see samples of her past events. The right planner can narrow down choices in a certain category depending on your taste. Instead of thousands of invitations, a wedding planner will weed out the obviously unsatisfactory ones and let you choose from the top three.

Finally, wedding planners know all the questions everyone else forgets to ask. If the ceremony is outside, she will remember where the bathrooms are or if portable ones need to be rented. It is the wedding planner's job to leave no corner untouched.

There are many online resources you can use to search for the closest planners in your area. Remember to interview each applicant to see if they are qualified and if you both see eye to eye. Once

your perfect wedding planner is hired, relax and know your big day is in good hands.

### **Hiring A Professional Wedding Planner: The Advantages**

**By Melissa Burton**

Have you ever wondered why Jennifer Lopez had made such a great impact on her movie, "The Wedding Planner?" This is because most people, after watching the film, had finally realized the importance of hiring a wedding planner.

Long before, most couples are having second thoughts on the idea of hiring a wedding planner. They have doubts if hiring the services of a wedding planner is really worth their money, especially those who are in a tight budget.

Basically, hiring the services of a wedding planner is actually a matter of choice and personal preference. If you think that you and your fiancé can handle most of the wedding planning without any burden, then, go on with your plans.

But if you think that doing all the planning from the very beginning is already tedious, then, it is time for you to hire the services of a wedding planner.

## Finding a Wedding Planner

Basically, a wedding planner is someone who is adept and knowledgeable when it comes to wedding plans. Wedding planners have already established their contacts with many businesses that are important in the wedding such as flower arrangers, caterers, venues, etc.

So, for most people who are not yet aware the benefits they can derive from hiring a wedding planner, here are some facts that you need to know:

### 1. Hiring a wedding planner will save you time.

Planning a wedding can be a daunting task. It can even be more tedious if the person who plans the wedding is a participant also like the bride or the groom. It can be really difficult to have an open mind especially with all the jitters and everything.

Moreover, planning a wedding does not happen overnight. Usually, it would take you 200 to 300 hours of planning, thinking, and brainstorming. Hence, to save you time and effort, it is best to hire the services of a wedding planner.

### 2. More savings

Many people contend that the reason why they do not hire a wedding planner is that it will be an additional cost on their part.

What they do not know is that hiring the services of a wedding planner can actually save you more money because most of the wedding planners have already established solid contacts with some of the common wedding businesses like flower arrangers, venues, and the like. Therefore, discounts are more likely to happen because they have their own connections already.

### 3. Organized planning

With wedding planners, weddings can be more organized because most wedding planners are very particular from the biggest down to the last details of the wedding.

After all, it is their job so they know what should be done best.

Moreover, wedding planners have actual timeline that they follow in order to have all the details be ready on time or even way ahead of time, leaving all the last-minute changes behind.

### 4. The decisions are still yours

With wedding planners, the decisions are still with the couple. The wedding planner will just guide, render some suggestions, and assist the couple in making the decision.

Hence, the couple will be able to, still, have their own style and preference with regards to the planning of their wedding.
