What is bartering? Bartering is the trade of your product/service for another's product/service. What better way to gain a new customer than by getting something you need in return?

A few tips on bartering:

~ Make sure you are both trading a fair value including shipping. It may be necessary to trade more than one product/service or issue a gift certificate for the remaining amount.

~ Only barter if they (or you) need the product or service

~ Keep a good record of your barter. Treat it just as you would an actual sale.

~ Keep in good contact with the person you are bartering with, both during and after the trade.

~ Be specific on what you have to offer and what you want. You don't want to be wasting your time (or other's) answer requests to products/services you don't need.

There are several different ways you can seek out what you need. Visiting message boards/groups making announcements in appropriate categories is one way. Many sites also have a special section just for bartering. A few of these sites are:

Be sure to look at the barterers listed to see you have a match. Most importantly, have fun!
