**Get Intimate With Asia: Travel To Korea**

**By Frank Johnson**

South Korea is one of the smaller nations in Asia, with a size comparable to the state of Indiana.

What it lacks in size it makes up for in abundant culture, turbulent history, exquisite cuisine and a generous and welcoming society.

If you want to experience South Korea's rich culture, history, and cuisine, be sure to find discount airfare to Korea. cFares is a great place to find deals on wholesale travel to Korea. cFares offers amazing travel deals and discount airfare to Korea that just can't be found anywhere else. So if you looking to book a flight to Korea but want the best deal possible, check out cFares for discount airfare to Korea. Wholesale travel to Korea is the answer to finding the best travel deal.

**A Little Background before You Travel to Korea**

The Korean peninsula has been literally and figuratively stuck between a rock and a hard place, namely Japan and China, for most of its existence. The region was prosperous under the three kingdoms of Goguryeo, Baekje and Silla during the first four centuries AD until the Mongolians raided the land and built an empire. The 16th century brought the end of the Mongolian Empire and the beginning of a massive game of tug-of-war between China and Japan over the strategic landmass. After World War II Korea finally broke free from Japan, with the USSR managing the North and the United States occupying the South. Today the North and South are two sovereign nations separated by a demilitarized zone. South Korea is officially known as the Republic of Korea (ROK) and commonly referred to simply as Korea.

**There's Still Soul in Seoul**

Despite the fact that Seoul was largely burned to the ground during the Korean War (1950-53), the northern part of the capital city is still home to hundreds of spectacular palaces and shrines. The Chosun Dynasty's Gyeongbokgung Palace is a 5.4 million square foot landmark with a 500-year history and stands among the remaining four palaces in Seoul. Nearly an entire day is necessary to explore the regal palace in all its magnificence. The Jongmyo Royal Shrine is a perfect next stop, as it was where the Chosun Dynasty worshipped. On the first Sunday of May each year a traditional

## Get Intimate With Asia: Travel To Korea

memorial ceremony is held at the Shrine with all the grandeur of the occasion 500 years past.

The southern part of Seoul is the commercial center of the city and boasts a fascinating blend of traditional and hyper-modern architecture. It is also home to World Cup Stadium, intricately weaving shopping streets and even an amusement park, Lotte World. Make sure to visit the city gates, and then venture beyond into the strikingly lush and green landscape to travel Korea more personally.

### When to Travel to Korea

Korea has a temperate climate, which results in heavier rain in the summer months (July and August) and a drier winter. Winter is white and snowy all over Korea and the ski season from November to March is extremely popular. There are 13 ski resorts in South Korea alone! After a day on the slopes it is common to relax in one of the many spas with natural hot spring baths. Summer is extremely crowded and very wet in Korea. For milder weather it is best to travel Korea in the spring or fall.

Traveling to South Korea any time of year is sure to be an exciting and rewarding experience, regardless of the weather!

### **Travel Asia**

#### **By BestTripGuide.com**

Traveling Asia is something that everyone should experience at least once in their lifetime. When you travel to Asia, there are so many things to see and do; make sure that you plan your trip in advance. However, remember to leave some free time in your itinerary, because when you travel Asia, you want to make sure that you have the flexibility for an occasional adventure.

As the largest continent on earth, Asia offers travelers a huge variety of places to visit, things to do and, cultures to see. For first time visitors who travel Asia, we recommend the following:

Island Nations–

Indonesia:

One of the most diverse destinations for travelers to Asia, the Indonesian archipelago can provide enough exciting destinations for a complete trip. Whether you are seeking relaxation, natural beauty,

cultural diversity or all of the above, Indonesia will show you an exciting and wonderful Asian travel destination.

Philippines:

Comprised of over 7000 islands, the Philippines has become one of Asia's forgotten travel destinations. Due to a recent history that includes martial law and economic corruption, the Philippines has lost much of its previous tourist activity to its more stable neighbors. Those who do visit will enjoy beautiful spots like the Boracay beaches and Lake Sebu.

Japan:

For decades, the island nation of Japan has been a favorite destination for travelers to Asia. From amazing Zen temples to kitschy reproductions of western monuments like the Eiffel Tower, Japan has something for every traveler who visits. The hardest thing is fitting it all in.

Southeast Asia

Thailand:

The Kingdom of Thailand is the most popular tourist destination in Southeast Asia drawing more visitors than its neighbors. With both mountainous regions and a beautiful coastline dotted with amazing islands Thailand is one a must see for those who travel to Asia. The city of Bangkok, the largest in Thailand is one of the most popular in all of Asia, as well.

Vietnam:

A quickly emerging destination among travelers to Asia, Vietnam is reshaping its image among world travel destinations. From the beaches along the coast, to its soaring inland mountains, Vietnam offers travelers to Asia with a sublime experience.

Mainland Asia–

China:

Too vast for words alone, China is rapidly emerging as the top destination for travelers to Asia. As China continues to modernize both economically and socially, it is becoming easier for those who travel to Asia to visit one of the largest and most populous countries in the world. If you travel to China, follow a loose itinerary and try to see as much as you can.

Korea:

South Korea is one of the most westernized of all Asian nations. Travelers to Korea can enjoy the modernity of the capital city, Seoul; or they can try visiting beautiful natural wonders like Songnisan National Park.

India:

Another of Asia's largest and most heavily populated countries, India is a complex and diverse nation unlike any other you will experience when you travel throughout Asia. Visitors to India will be enchanted by its unpredictability and surprising cultural dramas that exist among its inhabitants.
