Graphology (handwriting analysis) can help you & your child in selecting the right career (E.g. Engineering - Electronic, telecom, Civil, Mechanical, Robotics, Medical, Art, Drama, Music, Etc) as per the interest, abilities, skills, creativity & expertise of a child.

It is also helpful to sharpen his creativity & intellect.

Requires no tests :– Handwriting analysis (Graphology) doesn't require any IQ tests / personality tests / assessment tests. Only thing requires is the pen & paper.

It helps in understanding & removing the mental blocks & removal of key aspects of failure - Procrastination, Indecision, lack of Persistence, self–deceit, ego dominance, etc. to achieve greater personal & professional success.

My graphology (handwriting analysis) research basically focuses on thought process of a child coz a single thought can make throughout changes in personality and character.

What you think ?, What your Child think (+ve or -ve) ? Which is a quality trait that you don't know but it is affecting your child? There is too much can be written on this topic, to know everything - experience it. (Pls visit –

) Moral is graphology can make bright improvements in

his personality (Personal, Social, Physical, Sexual, Intellectual, Spiritual, Etc.)

Because every child is born Genius, There is no PROBLEM CHILD ; Its our superficial mind saying so. Always remember – A Loving emotionally responsive parent will invoke positive, cooperative, loving responses form the child.
