**Guitar Lessons: Guitar Playing Must Be A Passion**

**By Bill McRea**

The first time I picked up a guitar my whole life changed. I think I slept with it the night I brought my first new guitar home. It's a bit embarrassing to admit, but it is true. I remember the feel of the guitar in my hands and the shape, which reminded me of a girl I once dated. But seriously it was love, pure love.

Then I plugged it in and hit those first magic notes..... Wow did it sound awful, maybe the worst noise I ever heard in my life. So started my journey in the world of music some 23 years ago, I found my one and only mistress, the guitar.

Today I am happily married with 3 kids, a real job, and my guitars. The only thing my wife has ever been jealous over is my guitars. I told her once I could have girlfriends or guitars, she said she'd settle for the guitars. Thus is the secret to a happy marriage.

Oh more importantly, the guitars. No two are the same, even the same model, made in the same year, with sequential serial numbers, are going to play and sound different. They have their own personalities, their own feel and their own mood swings. I have Fender's, Gibson's, Washburn's, Parker's, solid bodies, hollow bodies and semi-hollow body guitars.

Every week I go to a friend's house, or a local store and just pickup every guitar I can and play it for a few minutes. It really is an obsession. I think, dream and dwell on playing guitar 24 Hours a day.

Is this story the same as your's. As humorous as this may sound, many of my playing friends say the same thing. You can never have enough guitars, or spend enough time playing your guitar.

Do you have a passion for playing as well?

## **You Can Learn to Play Rock Guitar**

**By Tomas Labas**

Although the electric guitar has originated in blues music, it is rock that gave its popularity. With rock music, the electric guitar became a massively expressive instrument. All guitar lessons have to touch on rock as well, but if you want to learn to play rock guitar, there are special modules you can take up. These modules focus almost exclusively on rock music.

The things you will be taught when you learn to play rock guitar can be roughly spread into three modules: first lessons, where you will learn the basics about playing the guitar, electric guitar improver and power chords.

### First Lessons

These lessons are mostly for beginners. If you have some knowledge about playing the guitar, you may skip some of these. This is up to your teacher to decide.

However, if you're holding a guitar for the first time, this is where your teacher will usually start. You will be taught the fundamentals about playing a guitar in general and playing rock guitar in particular. You will learn the basics about rock lead guitar and power chords. After these first lessons, you will have some idea on how to play classic rock guitar. If you get these right, you are on your way to actually playing rock guitar.

### Electric Guitar Improver

In the next lessons, you will probably be taught various rock techniques, such as sliding, string-bending, pull-offs, vibrato and hammer-ons. These tips will enable you to play some fairly good rock solos. You will also learn about scales and chords that will help you start making up your own music.

There might be a lot of blues references within these lessons. Going through all these will help you understand the relation between blues and rocks, which is essential if you want to learn to play rock guitar like a pro.

### Power Chords

Power chords are two or three string distorted sounding chords used in some of the most popular rock songs of all times. You will learn to play several rock songs during the first few lessons of this module. Afterwards you will be very familiar with the fretboard and surprise yourself with the sounds you will be

able to play.

If you seriously want to learn to play rock guitar, don't get frustrated or discouraged if you're not playing the way you would like to at the beginning. If you enjoy playing, the progress will come at some point. Find a guitar teacher you communicate well with, design a workable schedule to practice and, most importantly, try to have fun while you're learning.
