Do have to get all the facts, all the numbers, all the input from all the other people "most of the time" before you start out to start something new? Or better yet, you almost always just don't do anything new, because "it isn't broke so why fix it, and besides "we've been doing it this way" all along and nobody has ever even gotten hurt" or complained, or you like things just the way they are! Nonsense!

Well, I ask the question, why are you "afraid" (and yes this is all about fear) of moving forward? Is it because you can not predict how things are going to turn out, because you just can not "see" the outcome? So you become afraid to move forward.

Might I suggest that maybe you are in a self made rut, because you are afraid of moving forward to try something exciting, different, or new? So you procrastinate, change your mind, make excuses, do other things. So you do not move forward, because you just don't know what lies ahead. And so you "see" in your mind all the things that could possibly go wrong. Don't you know your mind can play tricks! Of course you know that!

So just think about it for a moment. The future is always what you actually "see" in your mind. If you "see" things not turning out (and you are unsure), they will not turn out. So if you can not imagine or "see" in your mind what you want, you will never get what you want! And that is for sure!

So enough of the negative! The truth of the matter is you get what you believe you will get. Believing is having faith. Faith is a state of mind that says "yes, I can" even though you do not "see" it. Faith is about believing in what you are hoping for will happen. Faith is the starting point of all new things you want to do and achieve in life. Faith is the basis of miracles. Yes, the impossible can happen even in your business. It has happen in my business: I received money just in the nick of time, I got a new web-designer just when the old one left town; I became outrageously successful just by keeping steady and persevering when all looked bleak.

Faith will get you where you are going. Faith will get you more customers when you believe the customers coming! Faith will increase your business' profits when you believe the money is already in the bank. Faith is the antidote of for failure, fear, and blindness (not seeing, of course) so you can see all the good in your life that you can apply to your business! It will bring you happiness.

Summary So step out on faith. That is another way of saying "go for it!" Believe and it will happen when you are on the right track. How do you know you are on the right track...you can feel it in your bones...you have the passion. Do not worry about the money, how many people you have following you or do not have following you, what your web-site has on it or doesn't have on it, or who you know. When you go forward on faith the positives will happen. So "go for it"!

### **The Importance of a Mentor**

**By Troy Arden**

When I first started this long but exciting home business journey I didn't know which way was up. I had so many questions and absolutely zero answers. Where do I start? More important was how do I start? What to do, how to do it, where to look, what to look for and so forth. To be honest, I was lost.

Then came along my mentor. She helped me every step of the way. I was coached on what to start off with and how to go about doing it. Step by step my mentor tutored me so my business could get off the ground and start rolling. Without her I would be nowhere near where I am today.

My advice to all new home business entrepreneurs is to get a mentor. Things will run a lot smoother and you won't be left shaking your head.
