Hair Loss Aloe Vera Treatment And Other Natural Hair Loss Treatments

By Oliver Turner

Many people feel that the problem of hair loss cannot be solved with the help of hair loss treatment products. They often get frustrated after spending too much money on ineffective hair loss remedies and their side effects with no positive results at all. In reality, hair loss treatment can be divided in two categories: Natural hair loss treatments and chemical treatments.

Here are some best hair natural hair loss treatments:

Aloe Vera Indians, Native Americans and Caribbeans have used Aloe Vera to promote healthy hair and prevent hair loss since ages. Aloe Vera balances the pH of the scalp and heals from within. It is also helpful in cleansing the pores. A general remedy of Aloe Vera gel with coconut milk and small amount of wheat germ oil used as a shampoo has shown great benefits. Aloe Vera surely helps you stop hair loss.

Jojoba

If you are affected with hair problems like eczema, psoriasis, dandruff or seborrhea you are requested to use jojoba oil. Native Americans and Mexicans have used jojoba oil for centuries to prevent hair loss and to control dandruff. Jojoba oil works well for hypoallergenic skin, as is a good moisturizer. This is one of the best hair loss treatment products.

Henna Henna is a traditional Indian herb, which is a good natural conditioner and works great as hair loss treatment product. It heals hair shaft by sealing the cuticle and repairing, stops breakage and restores the silky-shiny effect of your hair.

Capsicum - It stimulates hair growth by 50% and increases flow of blood to the scalp. This herb is effective in preventing hair loss.

Lemongrass - This herb helps stabilizing oil product in the scalp. It also provides nourishment to the hair. You can use oil of lemongrass for massage as well.

Hair Loss Aloe Vera Treatment And Other Natural Hair Loss Treatments

Dong Quai - Formation of DHT is the main cause of hair loss. Dong Quai contains phytoestrogens, which reduces the formation of DHT. Hence, Dong Quai is believed to be helpful in hair loss.

It is recommended that you consult an expert to know which hair loss treatment product is suitable for you.

Female Hair Loss Treatment And Information

By Paton Jackson

Did you know that female hair loss is part of the lives of more than 25 million women in the United States alone? Most of them are not using any female hair loss treatment and only few are aware of the existing hair loss treatments. In almost all the cases Female hair loss could be avoided, stopped and new hair growth could be stimulated.

Female pattern hair loss is similar to what is known as the "male pattern hair loss" for men. It is caused by an increasing amount of a chemical called DHT which usually occurs in the menopause age. As opposed to men, women usually suffer from thinning hair around the forehead and crown of their scalp, and not a complete baldness.

There are several available treatments for female hair loss of this kind:

Natural female hair loss treatment - There are several natural products that showed good results in stopping female hair loss like Advacia and Revivogen. These products are made up of hair growth vitamins, herbs and minerals and have no side effects.

Female hair loss products - The most popular hair loss product for women is Rogaine. Rogaine is the only FDA approved female hair loss treatment. Its' main component is called Minoxidil which is a DHT inhibitor.

Other less common female hair loss treatments like wigs, hair thickeners and hair transplants are not recommended.

Another kind of female hair loss is a temporary hair loss. This kind could be a result of metabolic problems during pregnancy, a severe stress condition, chemotherapy, high fever or infections. The treatment in these cases would be stopping the medical problems as soon as possible. This would also result the hair regrowth.

Hair Loss Aloe Vera Treatment And Other Natural Hair Loss Treatments

If you do not suffer from female hair loss we congratulate you and advice you to use regularly a shampoo, a conditioner and moisturize and to maintain a healthy diet. If you start losing your hair do not ignore it. You can stop your hair loss. Good luck.
