Have You Ever Tried A Cruise Vacation? 10 Reasons Why You Should

By Jolana Klobouk

I will admit it, I love cruise vacations. I have been on several cruises including a cruise for my

honeymoon, for New Years, and for multi-generational family vacations and I have loved each one. More and more people are finding out about the pleasures of cruise vacations including singles, families, couples, honeymooners, second honeymooners and groups of friends or families. Last year alone approximately seven million people enjoyed a cruise vacation and here are some reasons why:

1) Cruise Vacations Are A Good Value

The price of your vacation includes all of your meals and in-between snacks on-board; your accommodation, activities, children programs and entertainment. Throw in the exciting journey to some of the most fascinating and charming places in the world and you have yourself a deal! You will also know what your vacation will end up costing you before you go. Typically, your only extra expenses are alcoholic drinks, specialty restaurants, optional shore excursions, and personal services such as a spa treatment.

2) Cruise Vacations Have Amazing Dining

You have so much choice and variety of cuisine on a cruise, you will not be disappointed. From gourmet meals that showcase renown chefs to pizza parlours and buffets. The choice is yours whether to sit down for an delectable five course feast or grab a hamburger at the bistro. The only thing that is guaranteed is that you will not go hungry on a cruise.

3) Cruise Vacations Will Pamper You

Regardless of which cruise you choose, all cruise lines pamper their guests with first-class service around the clock. Staff is there to make sure you needs are met. From chocolates on your pillow to your favourite drink waiting for you at your dinner table, you will feel like you are being spoiled day and night!

4) Cruise Vacations Have Tons of Variety

A cruise ship is a floating resort, with all the things a fine resort has to offer and more. You can go non-stop. Enjoy one great show after another, enjoy daily tour excursions, visit the spa, listen to a lecture, shop and then dance the night away. Or you can lie back and just read a book on deck and just let your cares float away.....do what you want to do.

5) Cruise Vacations Are For Everyone

There are over 150 different ships, dozens of cruise lines and over 1800 ports-of-call with hundreds of places to see and things to do. Small, large, formal, relaxed, budget, luxury, there is a perfect cruise out there for you.

6) Cruise Vacations Make Vacations Simple

The hassles of an ordinary vacation are completely eliminated because a cruise vacation is one convenient package. You don't have to worry about making dinner or nightclub reservations, running to make flight connections as you travel from one destination to another, or packing and unpacking. Once you're on board, nearly all expenses are pre-paid... it just does not get more carefree than that.

7) Cruise Vacations Are Great For Family Vacations

Families love cruising and often there is a reduced rate for children. Traveling with Grandparents? Even better, they will love it as much as the kids! With a variety of children's programs geared from little ones to teens, kid-friendly menus, swimming, sports, games, movies, and exploring new places, your kids will not be bored for a second. The experienced child councillors will keep your children happy, while allowing you some time alone. And speaking of some adult alone time....

8) Cruise Vacations Are Great For Couples And Romance

During the day you can enjoy secluded beaches or romantic villages, enjoy en suite dining on a balcony overlooking the ocean or spa services for two. At night, enjoy dancing, musical shows, gaming or a quiet evening watching the moon bounce off the ocean as the warm breeze drifts over the two of you....do I need to say more?

9) Cruise Vacations Are The Most Satisfying

Cruises have a higher percentage of satisfied customers than any other vacation experience, once people try it, they come back again and again. It me 10 years to convince my brother and his wife to try a cruise vacation, they finally took one last year and they have already booked another one this year!

10) Cruise Vacations Are The Ultimate Vacations

You can see the world on a cruise. Feel free to completely unwind or take a walk on the wild side. If you want you can dance the night away or go up on deck and steal a kiss from your love. Make new friends, feast on sumptuous cuisine, learn something new, or just hang out and bond with your family.

Have You Ever Tried A Cruise Vacation? 10 Reasons Why You Should

Whatever your heart desires, it can be done on a cruise so be sure to "choose to cruise" for your next vacation.

Taking A Honeymoon Cruise Can Be Magical!

By Sintilia Miecevole

Many couples are finding that an all-inclusive honeymoon cruise can make their special getaway after marriage even more special. When they climb on board, they cannot believe the joy and simplicity of their vacation, with no worries and no stress! Taking a honeymoon cruise can make for one of the most memorable vacations you will ever experience and it all occurs on a single cruise ship! In the last several years, millions of couples have enjoyed honeymoon vacations on cruise ships, and with all the perks that you can find on a cruise ship it is not hard to see why.

When you think of a honeymoon cruise, you can think automatically of romance. When you watch movies, many of the most romantic moments you can think of are a couple on a ship sailing into the sunset. When you are on the deck of a cruise ship, you will have several opportunities to take advantage of this romantic situation! You will sail off into the sunset for however many nights your vacation lasts, while also getting romantic, moonlit nights and fun, sun-filled days. When you take a honeymoon cruise, you will also get the enjoyment and intimacy of secluded beaches and exotic locations. These events will make the memories of your honeymoon cruise very special for the rest of your lives together.

The reason it is so easy to see why so many people choose a honeymoon cruise is the simplicity of your whole vacation. When you purchase the fare for a honeymoon cruise, you are purchasing everything you could possibly need on your entire vacation. Included in that one cruise fare are your meals, snacks, accommodations, entertainment and any on-board activities. This in addition to the exciting destinations you visit all over the world! What could be easier than a cruise for all of that? You don't have to make your own dinner reservations or purchase theatre tickets when you are on a cruise. It's already done for you!

How you enjoy your honeymoon cruise is also up to you. You can sit back and relax, enjoying the sunny days by the pool or on the beach without exerting yourself. Or you can be on the go constantly, going from one show to the next, one activity to another, and exploring each and every exotic location you visit in detail. All of this between delicious dining experiences you've only ever dreamed of. Again, there are no worries or stresses, as all of these wonderful things are included in the cruise package!
