**Here an Ebook, There an Ebook by Wayne Patterson**

Here an ebook, there an ebook, everywhere an ebook! If Old McDonald had a computer it would be full of ebooks. My inbox is crammed with offers to sell ebooks, publish ebooks, write ebooks, and get filthy rich selling ebooks on the internet. All that is required is to purchase some guru's ebook and learn his or her amazing secret. I may not be a guru but I have been a farmer. I know what you have to be careful of stepping in when you cross the barnyard. That's exactly what most of these offers are full of and the only "filthy" you are going to get.

You are considering becoming involved for the first time in internet marketing. That means you are a "newbie." You don't know html from email. Naturally you are intrigued by the promises of instant wealth. So you surf around with your PayPal account and soon your hard drive is overflowing with useless ebooks. Your credit card is also overflowing with debt. This completes your first lesson in Ecommerce. "The wealth of a few is built upon the failures of the many."

Then how are you newbies going to get the accurate information necessary to be successful on the web? One answer is that you can surf the net and cram your hard drive full of ebooks, ezines, and articles at the amazingly low price of

FR\*E! The cruel fact is that many ebooks are out of date and that somewhere on the net the same information is probably available for FREE. It may take you a little longer to locate but I personally prefer FREE over PayPal. If someone has a secret that will make you an overnight millionaire do you really think he is going to sell it for \$19.95?

The other way (preferred) is to find a good coach, someone that has already been successful in business that can guide you to the information that you actually need. A good example is Fran Tarkenton at [www.GosmallBiz.Com](http://www.GosmallBiz.Com).

Much of the information is free and for a small fee you can ask consultants questions directly related to your own business. Another example is Ken Envoy at SiteSell. The amount of free information available from his site is amazing. Ken and Fran are interested in having you as a returning customer, not just a one time download. They provide you with enough information for fr\*e so that you can make an informed decision before you purchase.

You can receive one of Ken's books, The Service Sellers Masters Course, by sending a blank email to

[tsmssolidgold2@sitesell.net](mailto:tsmssolidgold2@sitesell.net)

The information Ken provides for free is much more valuable than other ebooks I have seen selling for 29.99.

I don't want to leave you with the impression that you should never buy an ebook. There are some that are worth the money and are time well spent. Only buy an ebook after you have exhausted the free information and are ready for the advanced course. On our site Carolyn and I offer one free ebook on eBay when you subscribe to our ezine and there is one for purchase. After reading the free material you can then intelligently evaluate the other book and decide if you want to spend your money. Always remember that old adage "you can't judge an ebook by its cover."

How To Get The Most From Your Free eBook  
Marketing Campaign

First, your ebook needs to have an attractive title. The title should grab the attention of your intended target audience. The more appealing the title, the more your ebook will be downloaded.

Your ebook needs to have quality content. You can write your own content or ask permission to use another author's content. Your ebook will be read more if the content is original.

You will want to put your ad on the title page or on the table of contents. This will give the most exposure for your web site or the products you're selling.

It's important to put your ebook in as many formats as possible. Most ebook software only allows the ebook to be read by certain browsers and software. People may not take the time to download a new software program in order to read your ebook. Other versions of your ebook could be in HTML, auto responder and downloadable text format.

You can contact other business owners and ask them if they would like to include their ad in your ebook. Just ask them in return to advertise your free ebook on their web site or in their e-zine for a set period of time. This method will get your free ebook marketing campaign off to a fast start.

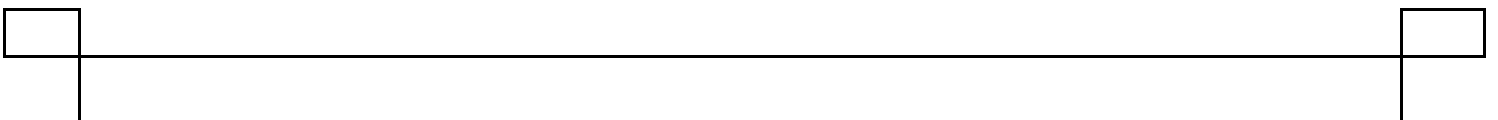

Allow the people who download your ebook to give it away to their visitors. This will multiply your free ebook's exposure. Submit your ebook to the growing number of free ebook directories on the internet.

These web sites also offer more information about ebook marketing. Some of them also have ebook discussion forums where you can ask questions and learn more about ebook marketing.
