Hints And Tips On Scrapbooking Baby's "Firsts"

By Elaine Clay

Hints And Tips On Scrapbooking Baby's "Firsts"

by: **Elaine Clay**

It is true to say that a lot of people begin to get the scrappin' bug after their child/children are born and usually their first attempt at scrapbooking is making a baby album.

Having a child is one of the most important events in our lives and baby's first year is a busy, lively, ever changing journey of discovery. It is full of important milestones...

No wonder then, as parents we want to capture and record all those many memorable moments – preserving them in scrapbooks is a great way to safely keep and cherish those memories for years to come.

One timeless and extremely popular baby scrapbooking idea is to make an album that consists of 'firsts'.

This is a relatively easy and flexible theme to follow, especially for someone new to scrapbooking and is a great way to create enchanting baby scrapbooks.

This kind of album usually consists of a scrapbook arranged in chronological order with individual layouts showing special and notable moments in your baby's life.

New babies are so photogenic it's hard to resist capturing all the big and little things that make up their day-to-day lives.

No doubt you will have lots of pictures to sort through - so here's a small list of 'firsts' to give you some ideas for organizing your photos: sleep/nap bottle/breast feed diaper change dressed in their first outfit ride in a car seat smiles bath trip out in the buggy solid food teeth sitting up drinking from a cup feeding him/herself crawling walking with the furniture steps/walking on their own hair cut halloween Christmas

Hints And Tips On Scrapbooking Baby's "Firsts"

To add a little more interest to your album try and vary the layouts, for instance make some events into double page spreads. Such as coming home from the hospital or bath-time, which always presents an opportunity for some great photos!

Give your pages a personal touch by adding some memorabilia, using a pocket envelope, to your layouts – like the birth announcement or maybe a lock of hair from their first hair cut.

If you are new to scrapbooking and you're unsure about starting out on your new album then a good choice would be to buy yourself a baby scrapbook kit. These kits contain everything you will need to begin scrapbooking and are a great shortcut to creating super layouts that you can be proud of.

You can also enhance your pages with some of the many baby-related products that are available on the market. Decorate your layout with an adorable or cute baby scrapbook paper.

Then, embellish your page with some charming baby scrapbook stickers like rattles, booties, bibs, bottles etc and when they're done display all of your beautiful pages in a lovely baby scrapbook album.

Go on... give it a go. Make yourself a baby scrapbook to savor and keep all those incredible memories. You'll find it's much more than just a scrapbook - it will become a precious family keepsake that you'll treasure forever.

Tips For Wedding Scrapbooking

By Dana Goldberg

Your wedding is meant to be one of the most memorable days of your life and wedding scrapbooking is a unique way of capturing those memories. The beauty of wedding scrapbooking is that there is such a wide choice of embellishments and other items that you can use to enhance your scrapbooking project. However, it is also worth considering all of the other bits and pieces that can be used from the big day itself. A wedding invitation, preserved flower from the bride's bouquet and groom's buttonhole are just some of the ideas that you can include in your wedding scrapbooking album. Instead of having a keepsake box with these items all mixed up and probably getting damaged they make a wonderful addition to the scrapbooking album and will be preserved for years to come.

Hints And Tips On Scrapbooking Baby's "Firsts"

Digital cameras are so popular now and this makes a wedding scrapbooking project easier, and harder! If you send out a request for all wedding guests to send you their photographs you may well be inundated with pictures to sift through for your wedding scrapbooking album but at least you will have plenty of choice. The solution for most wedding scrapbooking pages is to keep them as clutter-free as possible. The idea is to have only the key elements in the journaling to enable viewers to simply enjoy the atmosphere of the wedding scrapbooking pictures. A picture of the newlyweds need only have a few words with their names, date, and location of wedding stated on the main wedding scrapbooking page. It is easy to be overenthusiastic and purchase every wedding scrapbooking related embellishment that is available but this will only create a confusion of unnecessary items and detract from the beauty of the moment and possibly ruin your wedding scrapbooking album.

The reception is going to be the major source of pictures for the wedding scrapbooking pages and you need to be careful exactly how people are portrayed. It is worth having a lot of pictures from early on to choose from. Other aspects that can be included in the wedding scrapbooking project are a copy of the father of the bride's speech, the cover design from the couple's first dance song or anything else that you fancy.

The beauty of modern wedding scrapbooking is that you can alter pictures if necessary using computer software. Obviously you can crop pictures to suit but you can also change the background if it was a particularly grey day outside or remove red-eye from indoor shots to ensure that your wedding scrapbooking photographs are enhanced to their best possible extent.
