How To Boost Your Affiliate Sales & Traffic In 3 Quick Steps

By Codrut Turcanu

Right now I'm about to reveal you 3 POWERFUL Ways to skyrocket your Affiliate *Sales* in 7 days or less. Just follow the 3 Steps below and you could easily become a TOP affiliate promoter.

1. Create separate Web Pages to pre-sell

Add a brief review of each affiliate product you promote on a separate page on your Web Site. Include the benefits and the features of the affiliate product; a picture of the product is a GREAT way to BOOST *Sales*.

Each Web Page will have an eye-catching headline to attract visitors and entice them to read your review (500-600 words is enough) and click on your affiliate link.

Each affiliate product review will have a separate Web Page on your Web Site. Your review should start with an introduction where you educate your visitor and share GOOD information about a TOPIC related to the affiliate product you promote.

Write ALL the benefits your visitor will GET after they purchase the affiliate product and share with them some info about how the product helped you solve a problem or achieve a results (in case you purchased the product yourself!)

2. Offer *FREE* Reports by Autoresponders

Each visitor hitting your Web Site for the first time will eventually purchase from your affiliate link or leave your Web Site and never return.

Usually 1 from 100 targeted visitors (people interested in your Web Site content / topic) will purchase from you for the first time and the 99 of them will leave and never come back.

So what's the NEXT step, how can you make them come back and consider purchasing the product(s) you're affiliated with?

How To Boost Your Affiliate Sales Traffic In 3 Quick Steps

HINT: Use autoresponders! They are guaranteed to increase your Conversion Ratio if used properly.

Autoresponders help you to generate more Affiliate *Sales* by EXPOSING your leads to an affiliate product link / Web Page several times before they decide to buy. The more exposure your affiliate links GET, the more *Sales* you could RECEIVE.

Marketing studies reveal that up to 80% of *Sales* are made on the SEVEN (7) contact with a lead!

Write a mini-report (3-5 e-mail messages) and put it on autoresponder.

Each message can be delivered automatically whenever you want (one message per day, week, month, etc.), you only need to write the Report once and then paste each message in a separate autoresponder sequence (don't forget to include a SUBJECT line in each message you put it on

autoresponder!)

The Report must be related solely to your affiliate product TOPIC, otherwise I see no reason why you'd want to write about a subject and promote a product about other subject that has nothing to do with the affiliate product itself.

Add the autoresponder Sign-Up form on the TOP of your Web Site so every visitor can see it any subscribe to RECEIVE your *FREE* Report by autoresponder (they'll receive your Report by e-mail one the days you specified in your autoresponder Control Panel)

3. GET 100+ Target Visitors to Your Web Site

When it comes to skyrocketing your Affiliates *Sales* you must get targeted *TRAFFIC* and convert it into *Sales* and / or Leads. 100+ unique visitors a day is a low *TRAFFIC*, but if you manage to attract at least 100 people truly interested in your Web Site content / topic and affiliate reviews you are guaranteed to make 1+ Sale each and every day!

How to GET 100+ TARGETED visitors a day?

My no.1 TACTIC is to write articles and submit them to announcement lists (e-groups). I write over 2 articles a week and submit them to my TOP 12 favorite e-groups.

Each time someone (a Webmaster or eZine publisher) publishes my article on his Web Site / in his eZine, I receive INSTANT visitors to my Web Site, plus the more articles I get circulated on the Web, the more Targeted TRAFFIC I receive on a regular basis.

Try this for yourself and you'll be able to quickly BOOST your Link Popularity, Search Engine TRAFFIC and Affiliate Commissions.

Use an 'Affiliate Network' to Boost Your Commissions

By David McKenzie

Use an 'Affiliate Network' to Boost Your Commissions by David McKenzie

Most affiliates concentrate exclusively on direct sales. For affiliates this means joining an affiliate program and marketing the product or service through their web site or via email. The affiliate earns a commission for every sale made.

Very few affiliates appear to focus on the 2nd tier.

Most good affiliate programs are 2 tier which means that as well as direct sales you can also build what I call an affiliate network'.

An affiliate network is the ability to get affiliates signed up under you and earn commissions on the sales that those affiliates make.

A common commission structure might be 25% for direct sales and 10% for indirect sales.

As an affiliate you can earn 25% on any sales you make.

Building an affiliate network means you can earn 10% on each sale that each affiliate makes. If you have 100 affiliates in your affiliate network then you can see that a few 10% commissions can quickly surpass the 25% direct commission.

If you have an affiliate network of 100 then you will probably only have 5 to 10 of those affiliates making money for you. The others will make nothing.

However those 5 to 10 affiliates can earn you much higher commissions than you alone can make with direct sales.

It is just like having your own sales force!

Only difference is it's not your product or service.

Becoming successful with affiliate programs need not be all that difficult. One way to make it easier is to build an affiliate network for each of your affiliate programs. It will certainly boost your affiliate commissions.
