How To Choose A Wedding Tent

By Carl Walker

Renting a good tent is important when planning an outdoor wedding. While tents provide a cozy and personal touch to the whole outdoor wedding décor, they also shield you and your guests from unfavorable weather conditions. Tents are also more flexible than existing facilities because you have more options regarding where and how you want to have your wedding. However, they are more expensive and can cost you around \$3,000 to \$6,000 without the extras such as lighting, flooring, and the cost of delivery, setup, and removal.

Types of Wedding Tents:

These are some of the popular tents that you may want to check out before making a decision.

Party Canopy: This is a lightweight tent designed to protect from sun and rain. Installation is easy, and inexpensive to rent in comparison to other types.

Pop-up Canopy: Another lightweight tent with collapsible-frame fabric. Installation is also easy.

Frame Tent: A tent with a metal frame having no center poles. The rental company usually installs it.

Tension tent: This type is built with high center poles, a steeply sloped ceiling, with a more open feeling inside of the tent.

Pole Tent: This type has poles around the perimeter and in the center, which is very practical for harsher weather conditions. The rental company will install it.

Location and Flooring:

The best location for setting up the wedding tent is on an even high ground, and should be free of overhead utility lines. If the site has uneven terrain or experiences high rainfall, try to include plywood or plastic flooring. Plywood can be expensive but it will provide a durable raised floor and is suitable for almost any type of terrain. Plastic floor is ideal for paved surfaces and is much cheaper than plywood

How To Choose A Wedding Tent

floors. Also consider parquet–wood floor which can be used as the dance floor.

Size of the Tent:

There's no harm in renting a tent that's a little larger than actually required. Think of a tent size in which your guests can be comfortably seated. Here's how you should estimate tent seating specifications:

All chairs in rows: 6 square feet per person Round tables: 12 square feet per person Rectangular tables: 8 square feet per person Cocktails and receptions: 8 square feet per person

Along with these specifications, figure in the bar area, cake table, band area buffet tables, and dance floor.

Color of the Tent:

The traditional color for tents is white but you can choose from a wide variety and combinations, depending on the theme and mood of your wedding. For example, if you want a romantic starlit night sky to be part of your wedding, rent a tent with a translucent ceiling. Sidewalls can be solid white for more private affairs, clear vinyl to let in natural light, and cathedral–window walls for a more decorative touch.

Optional:

Remember that every rental firm also provides optional accessories which can really underscore the décor of your wedding and the tent. Choose those that will fit in to the theme and tone of the wedding. Other accessories that you can't do without may include air–conditioning (for areas with extreme climates), carpeting, portable bars, decorative lighting etc.

Wedding Cake Toppers: Important Things To Know

By Melissa Burton

Wedding cake toppers have long been the traditional symbol of married couples as they were symbolically placed above the wedding cake for everybody to see.

Wedding cake toppers are available in a wide array of designs, colors, and styles wherein couples can choose whatever they think would best portray their marriage.

How To Choose A Wedding Tent

So, for those who want to know some tips regarding the right way to choose wedding cake toppers, here are some tips that you may use:

1. Never use wedding cake toppers that are made of plastics, especially the cheap ones.

Even if you are tight on a budget, it is best not to choose wedding cake toppers that are made of plastics. Usually, these are the ones that are readily available in the department stores.

Wedding cake toppers should be as exceptional as your wedding cake. Therefore, it is best to use wedding cake toppers that is out of ordinary and never before seen in any wedding. This may cost a little bit more than what you have intended to spend with but would definitely convert your wedding cake into something wonderful, one that would definitely make your wedding truly a memorable event.

2. Be creative.

It is best if the wedding along with your wedding cake and cake toppers are all personalized. This means that the designs and styles are creatively made by the couple. This will add more romance and glamour on the wedding itself.

Best of all, do not be constrained with the traditional and classical designs of wedding cake toppers. You may deviate from the customs and have your very own wedding cake toppers.

Today, there are many contemporary designs that the couple may use. In fact, they can even have their own ideas. All they have to do is to ask their baker to make the concept and use it as their wedding cake topper.

3. For the budget conscious couple, you can use your parent's wedding cake topper if it is still available. This will truly make your wedding cake very special because of the hand-down generation.

The point is, whatever designs or styles of cake toppers you choose to have on your wedding cake, the fact that it symbolizes your marriage is already a special concept that no other item can replace.

Wedding cake toppers are not just sheer embellishments in a cake but more of an emblem, one that best represents the love that is flowing in the hearts of the couple.
