By Melissa Burton

2. Be creative.

It is best if the wedding along with your wedding cake and cake toppers are all personalized. This means that the designs and styles are creatively made by the couple. This will add more romance and glamour on the wedding itself.

Best of all, do not be constrained with the traditional and classical designs of wedding cake toppers. You may deviate from the customs and have your very own wedding cake toppers.

Today, there are many contemporary designs that the couple may use. In fact, they can even have their own ideas. All they have to do is to ask their baker to make the concept and use it as their wedding cake topper.

3. For the budget conscious couple, you can use your parent's wedding cake topper if it is still available. This will truly make your wedding cake very special because of the hand-down generation.

The point is, whatever designs or styles of cake toppers you choose to have on your wedding cake, the fact that it symbolizes your marriage is already a special concept that no other item can replace.

Wedding cake toppers are not just sheer embellishments in a cake but more of an emblem, one that best represents the love that is flowing in the hearts of the couple.
