**How To Invest In Offshore Or Internet Programs**

**By Ray Ogden**

**How To Invest In Offshore Or Internet Programs by Ray Ogden**

My financial objective is to quadruple my money every year. To do so, the programs I participate in should be able to produce, on average, at least a 100% quarterly growth rate. To accomplish these goals,

Learn about financial instruments that produce high yields,  
Learn how to participate in high yield investment programs,  
Make higher than average yields on my money over a long-term basis, and, Learn about and participate in asset protection programs.

New to offshore high yield investing programs (HYIP)? Or just want to learn more about offshore banking, online investing, trading programs. Maybe your looking for tax havens, or more asset protection. Keep reading we might just be a little help in your investing needs.

**Foghorn's Enlightening Tips!**

(1) Set an exact amount of money that you are willing to lose. No matter what comes along, don't go back to the bank. Whatever the maximum amount is that you are willing to lose, only spend one-half that amount to start and wait for some money before you spend any more.

(2) Start with programs that have been paying for a while. Check the rumour mill to see if they are experiencing any paying problems. If there's the slightest hint of trouble, find something else. Even if there really isn't a problem, the rumour mill can create one.

## How To Invest In Offshore Or Internet Programs

- (3) "Don't spend it all on one place. Don't put all your money in one type of program. Pick a couple of different types of programs (loan, trading, network marketing – with nominal sponsoring). Pick different payment time frames, weekly, monthly, yearly, etc.
  
- (4) If the program is promising a return in less than 7 days, pass it by. It's rare that an investment based on a financial instrument can AVERAGE enough in a week to pay 100%. It is probably some type of ponzi or pyramid scam!
  
- (5) If the program description says that it needs lots of people to join, so refer as many as you can, or, you need to spend every day of the week to keep things going, find another program.
  
- (6) Spend the minimum going into a new program where no one has EVER been paid. You may NEVER get PAID.
  
- (7) So you think maybe you found a winner? Is it offshore? Any program can be working, be paying and running like a smooth clock. If the money is in the states, where it can be ceased by inquiring minds, it's in big jeopardy. How long do they need to keep your money before your principal is returned? That's how long you are at risk of loosing it.
  
- (8) How many members are there? 5,000, 10,000, more? That's a sure bet that the books are open to the public? The more people there are in the program, the more danger that it is being watched and there's someone waiting for an opportunity to close it down. The more people, the longer it will take to get your money to you, and of course, the faster your government gets into the action.
  
- (9) Every failure can become a positive learning experience. Think about this, 90% of the programs promising 50% a week fail in a short period of time, and then one comes along promising 200% a week, what are the chances of success? Right!!
  
- (10) We have been in programs that produce returns of 100 – 300% per month over time. The hard part, knowing someone that is in contact with those who are in the know. You know! These types of programs are kept quite. You won't get much if any information because of non-disclosure agreements, unless your are putting up ,000s. When you find one of these golden eggs, guard the Secret!
  
- (11) If you do not have a plan that includes discipline & patience...You won't have the money when you come upon that once in a life time opportunity!

## How To Invest In Offshore Or Internet Programs

10 years of investing in all types of online and off-line programs..Weekly newsletter with investing tips..programs..scam watch.I do not consider myself an expert..But I Do Make Money In These Programs..And So Can You. ### **Finding Offshore Services**

#### **By Sandy Baker**

Many who are concerned about the safety of their assets have turned to offshore services as a way of helping them. If you are one of the many who worry that your assets could be sued by some frivolous lawsuit and you'll end up losing everything, then the consideration of these offshore-services is something that you must look further into. The good news is that there is a wealth of information to be had that can help ease your fears considerably.

There are various types of offshore services that can provide you with the safety and secrecy that you may need. For example, one of the most common problems with keeping money in United States banks and financial institutions is the simple fact that they are easy to fall victim to possession should someone win a lawsuit against the individual. But, with offshore services, there are a number of remote ways to keep those assets safe from this type of action.

In order to find the right opportunities for your specific needs, simply invest some time in finding the opportunities available to you through the web. Not only can you find the information that you are looking for about offshore services, but you can find the companies and financial institutions that can help you secure them right here as well. The combination of these things will help you find trust and safety in your asset protection systems once again.

Whether you are looking for offshore banking or offshore financial institutions, you can easily locate them on the web. You can find companies that can help with investment protection or other services as well. In fact, you can also locate companies that have the ability to provide you with offshore software needs too. Offshore services can also be investigated on the web as well to find out how secure they are and how trustworthy they are as well. Offshore services like these offer you safety.
