How to Earn \$60,000+ a Year with Permission Email Marketing

By Jodi Hans-McMillan

How to Earn \$60,000+ a Year with Permission Email Marketing by Jodi Hans-McMillan

To be frank, \$60,000 a year with permission email marketing is conservative. Had you been part of this program 3 months ago you could have made \$23,750 in just two weeks. I'll show you how below.

Permission email marketing is the most powerful and profitable way to create a consistent source of income on the internet.

Amazon uses it. Microsoft uses it. Sharper Image and Motorola use it. Even IBM and The Wall Street Journal are using it!

Anyone can follow my simple PE strategy from beginning to end in one sitting and begin earning money with permission email marketing. It is the same strategy online marketing guru's are using to rake in tens of thousands of dollars within a few short weeks.

This isn't a pie in the sky promise. It's a fact. If you're willing to be patience and make a sincere effort, you will be pleasantly surprised at what you can do!

Ready? Ok, let's begin...

WHAT IS PERMISSION EMAIL MARKETING?

Generally speaking, permission email marketing is email marketing which utilizes an opt-in list of names and email addresses of people who have requested information from you.

(An "opt-in" is a prospect who has requested free information or signed up for a free service you provide.)

How to Earn \$60,000+ a Year with Permission Email Marketing

Marketers use their opt-in email list to create an ongoing and consistent source of high income by first CULTIVATING the list.

CULTIVATING the opt-in email list establishes an ongoing relationship with your subscribers because you will be sending, via email, highly desirable and FREE information.

The information you offer will teach the subscriber something of value. You, the marketer, will make money when you occasionally endorse a new product to the list.

Over time the people on the opt-in email list become familiar with you and grow to trust you.

Having built such trust, when the time comes for you to endorse a product to the list, you can reasonably expect to produce anywhere from 10% to 40% in sales.

The more times you have communicated with your subscribers and the more value the information received offers, the greater expectation there is of a higher percentage of sales.

Remember this one simple FACT and you will not fail to earn a remarkable income as a permission email marketer:

****People are 1000% more likely to buy based on the recommendation of someone they TRUST than from a complete stranger****

SEE HOW OTHERS ARE MAKING AMAZING PROFITS FROM SMALL OPT-IN EMAIL LISTS

Let me give you an EXAMPLE of the power of a well done "Permission Email Marketing" campaign and the profits that can result from such an effort.

In 1999, Mark Provo of Provo & Gladwell Associates developed a hot new software product. The associates hired a web developer to create a web site and place it prominently on the major search engines. However, only a few orders trickled in each week. To speed things up they spammed 1,000,000 random email addresses.

The emailing produced less than \$100 in sales and generated a landslide of not-so-nice responses.

It was a dreadful disappointment.

However, on another occasion Mark emailed the same ad to his own in-house, opt-in email list of 8,000 people. These were people who had purchased products from him before or who had, at one time or another, requested more information about other products and services.

Mark had an established relationship with the people on his list. Over time he had CULTIVATED his list by sending out free tips and valuable information. Those on his opt-in list benefited from these emailings and learned to trust him and the advice he gave.

The end result of emailing his ad to his in-house, opt-in list was a whopping \$190,000 in sales and zero complaints — all within three weeks! People on his personally cultivated, opt-in email list trusted him and in no time at all, he made

a small fortune and he continues to do so to this day.

As for yourself, consider this:

If you had a high-demand product, your own in-house list of 1,000 opt-in email subscribers, and sent the same email ad, you could very well have made \$23,750 in just three weeks.

And just think about it for the long term! If you have your own opt-in email list of 1,000 subscribers, and only 20% of the people make \$300 in purchases per year, your income would be \$60,000.

If your opt-in email list had 2,000 subscribers and 20% purchased \$300 in products per year, your income would skyrocket to \$120,000 annually!

Get the picture?

YOUR FIRST GOAL AS A PERMISSION EMAIL MARKETER MUST BE TO BUILD YOUR OPT-IN EMAIL LIST TO A MINIMUM OF 1,000 SUBSCRIBERS.

Next, you'll need to build TRUST with those on your email list by offering them FREE information of real value.

Finally, endorse products of equally real value and you could kiss your money worries good-bye tonight.

AS YOU CONTINUE READING, you will learn how to acquire pre-cultivated, opt-in email list, a free, pre-written newsletter you can use to send to your opt-in email list to continue building TRUST.

Plus you will learn where to get free products with high value... all for FREE! Additionally, you will learn to work only 30 minutes a week and be in a position to earn \$60,000 a year or more.

However, let's not get ahead of ourselves. I want to be thorough and explain to you an important detail you must understand about CULTIVATION before attempting this strategy.

HOW TO WORK YOUR OPT-IN EMAIL SUBSCRIBERS INTO A BUYING FRENZY!

As I mentioned above, when you gain your subscribers' TRUST, they will buy from you over and over again. What's more, they will buy from you even if your price is higher than any of your competitors.

The best way to build trust is simply to Stay In Touch with your subscribers. Trust is gained by consistently CULTIVATING them.

In advertising circles this is called REACH and FREQUENCY.

For example, if you hear a song played over and over again on the radio (Reach) enough times (Frequency), sooner or later you're going to wind up whistling that tune while at work and getting so caught up in it, that you will go out and purchase the tape or CD, and, this action being repeated by thousands of others, the artist will have a hit.

The radio allowed the recording artist to REACH you; the number of times the disc jockey played the song created the FREQUENCY.

As a permission email marketer, you can REACH your opt-in email list audience for free, as FREQUENTLY as you wish, simply by broadcasting an email with desirable information to them once or twice a week.

Quiz #1: What do you get when your subscribers hear from you consistently?

Ans: TRUST!

Quiz #2: What do you get when your subscribers TRUST you?

Ans: ...SALES! SALES! ...and more SALES!

Let me give you a real world example of how I used Reach and Frequency to earn a substantial income as a Permission Email Marketer starting with only 48 people on my email list.

REAL WORLD EXAMPLE:

I emailed a newsletter twice a week loaded with useful tips and valuable information. This is how I CULTIVATED the list to gain recognition and TRUST.

These 48 individuals purchased virtually EVERY new product I offered them...

I made, on average, 2 offers per month and usually earned around \$30 per sale on these offers.

48 people X \$30 = \$1440 per mailing X 2 mailings per month = \$2880 a month just from a list of 48 people.

That's over \$34,560 in a year's time.

So what have we learned so far...

STOP STRUGGLING to sell products to strangers on the internet.

BUILD A RELATIONSHIP with an opt-in email list by offering subscribers something of real value—free of charge.

OFFER DESIRABLE PRODUCTS to your subscribers and kiss your day job good-bye.

By completing the steps outlined below you'll be on your way to quickly becoming a professional, email marketer and a full-time, online income will be well within your reach.

Generating Leads using your Autoresponder

By Mieke Janssens

An autoresponder is probably one of the most important marketing tools you can have when you're doing business online. In fact, there's probably only thing more important than an autoresponder, and that's your opt in list. But as you probably know: autoresponders and opt in list go hand-in-hand: the list doesn't exist until your autoresponder mailing list starts filling up with names and email addresses!

If you want to build an email list, the easiest and fastest way to gather email addresses is to give things away for free: give away an ezine, free reports, free ebooks, free access to private websites, or anything else that you can think of. Your goal is to get people to sign up to receive that freebie, and to agree to receive email from you in the future! This way, you create a win-win situation: the person that's subscribing gets a freebie and you get his name and email address, and permission to email him in the future.

But if you give it some extra thinking, you could get even more than that. The freebie that you give away can also be used to promote your products or services. For example, if it just has (your) affiliate links for products or services that are related to the topic of the freebie, it is a way to generate extra revenue. You also need to make sure to include valuable information in the emails you send, or you will have people dropping off of your autoresponder mailing list like flies!

You need to use every opportunity that is presented to you to succeed.

- you can earn money in the freebie that you create
- you can earn money when you send the 'thank you' email after a person has requested your freebie
- you can earn money every time an autoresponder message is sent out to that list in the future

Don't waste those opportunities, but put them all in automatic mode with the use of an autoresponder.
