How to be a Miracle Maker

By Keith Varnum

How to be a Miracle Maker by Keith Varnum

Create the Love, Money, Body & Spirit You Want

Here's a fascinating secret about miracles: You can't necessarily always place an order for magic at will, but you can deliberately create the conditions—environment, atmosphere and attitude—that make miracles a thousand times more likely to occur. Want to know how you can create a miracle-friendly world? By taking these practical steps, you will bring magic into your relationships, health, finances and more!

Your ability to Make Miracles is in direct proportion to your willingness to:

1. Tell yourself more truth about the situation you want to transform

The more honest you are about where you're really at, the more personal power you have to realize your dreams. By aligning yourself accurately with what is real, you retrieve all of the life force you've invested in holding together false situations and relationships. This re-captured energy then attracts the goals you desire. In this universe what's congruent gets the energy. What's not congruent doesn't get the energy. Where aren't you being honest or accurate about some aspect of your life? What truth about your life is right now safe, timely, helpful, nurturing and liberating for you to acknowledge to yourself?

2. Act "outside the box"

All magic occurs beyond the boundaries of your current belief system. What obstacles lie between you and moving outside your "comfort zone?" Where could you let your vision for your life be more outrageous? More fun? More of what you really want?

3. Withdraw from collective mass consciousness

Step beyond general consensus to remove the limits of what's possible for you to have. Many people have changed society—and had fun—by doing "what couldn't be done." You can too. When you withdraw your energy field from the energy field of the tribal

collective agreement, you can create outside that agreement. Be "in the world, but not of it." Where in your life would it serve you to step a little further outside of mass consciousness thinking?

4. Use the Law of Attraction: Energize what you love with gratitude

Our magnetic field of energy is always (all ways) attracting exactly what we need to create our heart's desires. Discover the ancient wisdom of multiplying what you have with deep thankfulness. As you pour the vibration of appreciation into the love, health, prosperity and joy that you already have, this vibration will magnetize more of the same to you. It's the physics of the Universe. What aspects of your life could you right now be genuinely grateful for?

5. Experience "concrete, physical" reality as energy

When we choose to experience so-called "solid" things as the vibrational energy—fields of energy—that they actually are, these aspects of our reality become infinitely more malleable and flexible in responding to our intentions. Where are you willing right now to open to experiencing your body—and other people, conditions, animals, rocks, emotions—as an energy field (life force/flow dynamic) rather than as fixed, static, solid objects?

6. Reclaim your Personal Power

Are you energizing ideas and activities and maintaining relationships that no longer serve you? When you choose to invest in those relationships and situations that do feed your dreams, you regain tremendous personal power. When you choose to

call back your spirit from the people, ideas and activities that no longer serve you, you regain tremendous personal power to invest in those relationships and situations that do feed your dreams. What are you tolerating, avoiding or denying in your life right now? Where are you compromising, sacrificing or settling for something less than what you really want? Where could you invest your time, energy and attention that would really serve you?

7. Relax your grip on your belief system

When you release your vise grip on the rigid, fixed beliefs you inherited from society, the things can shift that need to shift for something new, fresh, wonderful and miraculous to happen to you. What are your beliefs about how life operates? How important are these beliefs to your survival, identity,

reputation (need for approval) and sense of worth? In what areas of your life could you right now relax your need to control the exact functioning of the people and events around you?

8. Build Your Chi – Your Internal Life Force Energy

Where could you be more accessible to energy–giving situations and people? Where could you be more inaccessible to energy–draining situations and people? How can you naturally and easily "build your internal life force chi" through activities that are fun for you? What in your life are you not experiencing as an adventure?

9. Connect directly with Spirit

Your soul is in charge of your life! Your spirit has been running the show from behind the stage curtain since the beginning of time. Open a direct line to the wonders, wisdom, support and guidance of your own brilliant soul plan. How do you mediate/pray? Is it as effective as you would like? Have you tried a moving meditation?

10. Align your personality with your soul

When you're aligned with your true intentions in being here this lifetime, prosperity flows automatically with no effort or doingness. Align your everyday lifestyle with your soul vision and receive all the support, energy and love you need—and begin

to enjoy the ride! What actions could you take that would bring your life more in accord with your life purpose? What changes could you make to be more authentic in your life?

11. Allow yourself to receive from Spirit

The primary joy and purpose of our spirit friends—the Ascended Masters, guardian angels, spirit guides, nature devas, spirit animals—is to assist us to reach our life goals. Do you regularly ask for assistance, and let in love and energy from your other dimensional allies?

12. Embrace your Shadow

What you choose not to see, you can't change. What weaknesses, faults, fears and shortcomings do you feel you have—socially, physically, spiritually, romantically, financially, sexually? Are you willing to open up to your soul's point of view on your so-called "dark side"?

13. Hang with people who nurture you

By your own pre-arranged conscious design, old soulmates deliver messages to you that trigger timely awareness, alchemy and awakening. What people and environments are not entirely safe, supportive or inspiring for you to be with? Where could you refuse to let another be reckless with your heart? Where could you be less reckless with another's heart? Where could you celebrate the success of others?

14. Listen to your body

What lessons is your body reflecting to you? What wake-up calls from your body have you been denying? What's the weight you are carrying around? What's your body dying to tell you?

15. Follow the guiding signs and synchronicities Spirit gives you everyday

Our soul is always (all ways) trying to steer us toward our goals. We live in an interactive, responsive universe that is designed to fulfill our deepest dreams—if we would only play along! Allow your intuition to guide you to the forms and vehicles that will empower your spirit to express fully. What messages and signals has the Universe been sending you that you have been ignoring, misinterpreting, or are afraid to act on?

16. Choose to be innocent (free) of the past: Welcome surprise and serendipity

Open the door to more magic, meaning and money in your world by learning to suspend skepticism and conditioned responses. Learn to surf through the surprises of life, instead of being swept away by them.

17. Feng–shui your life: Give yourself a "spaceshift"

Feng–shui is the ancient art of consciously managing matter and energy within space. By intuitively re–arranging the elements of your daily life, you create the space to nurture the freedom, opportunities and effectiveness you desire. By clearing out the old, dead elements of your life, you create a natural vacuum and an unblocked channel for fresh, new energy and ideas to come into your private and professional life. How could you unblock your energy now? Where can you re–arrange the ways you live your everyday life in a fresh, new, intuitive way?

18. Live your life as an experiment

Consider your life as the latest–and greatest–experiment by human consciousness to express Heaven on Earth–or just to have fun playing in the 3rd dimension. Where could you lighten up, celebrate and have more humor in your approach to living?

Drawing from the wisdom of native and ancient spiritual traditions, Keith Varnum shares his 30 years of practical success as an author, personal coach, acupuncturist, filmmaker, radio host, restaurateur, vision quest guide and international seminar leader (The Dream Workshops). How Does Adwords Miracle Compare?

By Garth Jenks

Chris the author appears to be a decent guy, and his book Adwords Miracle is certainly a decent book, but my concern is that at \$97, are you paying for exclusive cutting edge Adwords info or are you buying into the hype??

So, what do you actually receive with Adwords Miracle package? The sales page promises 4 specific components plus access to a few videos.

I've purchased Adwords Miracle and i believe that this is what you REALLY get. You get the main eBook, 3 'spin off' components and a set of 3 recordings showing you 3 of the areas that the book

already covers in text form.

The videos are for people who may prefer to 'watch' the 3 particular aspects of Adwords rather than read about it. Just don't expect to learn anything new that isn't already covered within the main manual.

Having said all this, if Adwords Miracle WAS the only book available on Adwords then I wouldn't be disappointed and at \$97 it represents reasonable value. I'd much prefer to buy and read this book than try to learn it all via my own research!

It is however, NOT the only eBook to be found on Google Adwords, in fact it's not even the only good book available.

A Cheaper Alternative To Adwords Miracle to Consider Is.....

There is a much cheaper alternative available to Adwords Miracle. In fact it's about 40% cheaper. It's called Adwords Elements.

Within Adwords Elements you can learn pretty much all the secrets outlined within Adwords Miracle, plus a couple of the author's own secrets. It's laid out and written in a simple, easy to understand manner and is stuffed to the brim with the same sought-of info that you can use to take full advantage of the power of Adwords.

In my own personal opinion using Adwords Elements, you will walk away with the same little known knowledge and advantages that Adwords Miracle offers, albeit at a cheaper price.

I'm not a massive fan of hype so that's all I'm going to say. Check Out

if

you're looking for a quality up to date Adwords guide!
