How to draw FREE traffic to a youravon.com website! by eRix

If you have a youravon.com website and are in some dire need of some potential customers or representative sign-ups from the Internet; and, you do not want website traffic from just your friends and relatives, then learn to utilize the Yahoo! Finance Groups to locate 1000s of potential leads.

Here is how it works. At Yahoo! groups you can post a message and it is posted at the group as well as in individual emails of each member that sets their membership on email notification when they sign up. Since localized groups for niche markets such as Avon and others frown on people advertising in the group messages. Go into the Business and Finance Groups and enter either the Home Business category or the Small Business category and find a group that allows you to post your offer to the group.

Things to look for in a good Ad group:

- Members are actively posting messages every day.
- The Number of Members in the group (some have 5,000 to 6,000 or more).
- Ability to post your offer as many a times as you like, not just once a day.
- New Members are signing up everyday.
- Members are actively placing links into group.

Some groups may seem quite large, 6,000-10,000 members but the group is controlled by the moderator like their own safe list or members are no longer actively involved in posting or linking. These groups are useless to you and should be passed over unless they meet at least these minimum requirements as listed above.

Once you've sign-up, then you can post your offer to the majority of the group receiving email. Try to first let them know of the business opportunity of Avon: Distributorship, leadership, sound business help, and ecommerce websites to process Internet sales.

*note, when you get a youravon.com website you lose 5% of the commission you receive on sales; however, you could possibly end up with a great supplemental Avon income that you do not have to

hand deliver your self.

Get a youravon.com website, join a group or two at Yahoo! and email your message to the masses. This way your email is not considered s*pam because you are sending it to people who opted into the group like yourself. You could possibly reach a few thousand people with the Avon Message and opportunity, and increase your sales for the effort.

Give it a try – You have nothing to lose and everything to gain.

How to Generate Loads Of Free Traffic To Your Website!

By Paul Kellum

One of the most popular ways to generate free traffic to your website these days is to use a free traffic exchange service.

A traffic exchange is website service that enables you to view someones website, and others in turn view yours. You earn credits when you view someones site, and you use those credits to have others view your site.

Internet marketers would like to know how to bring traffic to their websites quickly, without spending any money. Traffic exchanges can accomplish this.

The greatest benefit comes in when you sign up others and receive traffic from their efforts.

The different types of exchanges are start page exchanges, manual surf, and auto surf.

The key is to join more than one exchange, it could be start page, manual or auto surf exchange, and promote them to get referrals.

Go to any search engine such as yahoo or excite, and search for traffic exchanges. There are hundreds, with new ones being established everyday.

With all the traffic exchanges you find from the search engines, if you join them, you will increase your traffic greatly.
