I can't believe I've just finished creating my very first Ebook. I feel like an Author, a Writer, and incredibly successful all in one. If you've been toying with the idea of wanting to make your own Ebook, but don't know where to start, perhaps I can help!

Several months ago I woke up one morning with a really good idea for a neat niche market that really hadn't been tapped into on the net. (I have the best ideas early in the am.) I researched my idea for awhile and decided to write an article.

I have always wanted to write a book, so after researching this area as well, low and behold I came across a website that offered a way to create your own Ebook in PDF format for Fre.e! I was stunned and thought I would give it a try. (I'll give you my resource at the end of my article.) I followed all the easy steps and before I knew it, my Ebook was created. It took me only a few days to write my article and to get it set up in Ebook form. You can't imagine how GOOD I felt when I had

achieved this one feat! I thought it would be so difficult. I thought that creating Ebooks were only for the big marketing guru's or techies. I'm not either of these and I created it with ease.

I then started to create a simple website around this very niche market. I set up my Ebook on my website along with other "associate products" to sell as well. It's a very good feeling when an individual clicks on the "buy now" button and purchases something that you've created on your own.

You can do the very same thing I did. If you have a dream of creating your own product (which I highly advise), then follow the simple step I give you below and get started today in creating your very own fortune on the Internet! You can do it starting today!

How To Get The Most From Your Free eBook

By Adrian Kennelly

How To Get The Most From Your Free eBook
Marketing Campaign

First, your ebook needs to have an attractive title. The title should grab the attention of your intended target audience. The more appealing the title, the more your ebook will be downloaded.

Your ebook needs to have quality content. You can write your own content or ask permission to use another author's content. Your ebook will be read more if the content is original.

You will want to put your ad on the title page or on the table of contents. This will give the most exposure for your web site or the products you're selling.

It's important to put your ebook in as many formats as possible. Most ebook software only allows the

ebook to be read by certain browsers and software.

People may not take the time to download a new software program in order to read your ebook. Other versions of your ebook could be in HTML, auto responder and downloadable text format.

You can contact other business owners and ask them if they would like to include their ad in your ebook. Just ask them in return to advertise your free ebook on their web site or in their e-zine for a set period of time. This method will get your free ebook marketing campaign off to a fast start.

Allow the people who download your ebook to give it away to their visitors. This will multiply your free ebook's exposure. Submit your ebook to the growing number of free ebook directories on the internet.

These web sites also offer more information about ebook marketing. Some of them also have ebook discussion forums where you can ask questions and learn more about ebook marketing.
