In His Image

By Joyce C. Lock

In His Image by Joyce C. Lock

Male and Female ~ Created Equal

And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, in the image of God created he him; male and female created he them.

And we know that all things work together for good to them that love God, to them who are the called according to his purpose.

But we all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, even as by the Spirit of the Lord.

That ye might walk worthy of the Lord unto all pleasing, being fruitful in every good work, and increasing in the knowledge of God; Strengthened with all might, according to his glorious power, unto all patience and longsuffering with joyfulness; Giving thanks unto the Father, which hath made us meet to be partakers of the inheritance of the saints in light: Who hath delivered us from the power of darkness, and hath translated us into the kingdom of his dear Son: In whom we have redemption through his blood, even the forgiveness of sins.

There is neither Jew nor Greek, there is neither bond nor free, there is neither male nor female: for ye are all one in Christ Jesus.

For by him were all things created, that are in heaven, and that are in earth, visible and invisible, whether they be thrones, or dominions, or principalities, or powers: all things were created by him, and for him: And have put on the new man, which is renewed in knowledge after the image of him that created him.

.....»:§«»§«»§«»§«»§:«.....

So I returned, and considered all the oppressions that are done under the sun: and behold the tears of such as were oppressed, and they had no comforter; and on the side of their oppressors there was power; but they had no comforter.

Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator, who is blessed for ever. Amen. For this cause God gave them up unto vile affections: for even their women did change the natural use into that which is against nature: And likewise also the men, leaving the natural use of the woman, burned in their lust one toward another; men with men working that which is unseemly, and receiving in themselves that recompence of their error which was meet. And even as they did not like to retain God in their knowledge, God gave them over to a reprobate

mind, to do those things which are not convenient.

I said in mine heart concerning the estate of the sons of men, that God might manifest them, and that they might see that they themselves are beasts.

.....»:§«»§«»§«»§«»§:«.....

Ye are bought with a price; be not ye the servants of men.

Terms Used the in the Stock Photography Business

By Kelly Paal

So you are a small business person or web designer and you want to purchase some stock photography for your website. Great. Photography is a wonderful way to improve the emotional impact of your site. But there are a few terms unique to the stock photography business that you should know.

In His Image

Royalty Free – you'll see this term often. What it means is that you pay a one time fee for an image and you can use it for as many times as you want for as long as you wish. It is a great way to get inexpensive photos. Now if you are concerned that your competitor would or could use the same image as you, photographers and agencies can continue to sell the image after you purchase it, then you need:

Rights Managed – this one is next term you'll see. This means that you pay a fee for the image based on how, where, how long, and how many people will see the image. This one will cost you a lot more in most cases. This is worth it if you do not want your competitor using the same image for the same purpose. Usually the stock agency or photographer also agree not to sell the image to others in your field for the time that you are using the image. So you can see why this option protects your use of the image but you'll also pay much more for this protection. Remember too that, at some point, you decided to discontinue using/paying for the image the agency or photographer can then sell the image to someone else, even someone in your field.

Flat Rate – this term isn't quite at common but it is similar to royalty free. Usually this means that you pay a one time fee for an image, but it can only be used for one purpose by one person. Pricing will be higher than royalty free but less than rights managed.

Copyright – even with royalty free you are still only purchasing the right to use an image not the image itself. All images are property of the agency or photographer who owns them. How do you know who owns them, there is usually a © symbol with date and name of the person or agency who owns the image. No matter what you paid for the image you are NOT the owner of the image. This means you cannot remove the copyright information, alter the photo, use it as part of a logo that you own a copyright, or resale the image as your own.

These terms will get you started but remember there can be differences in these definitions from agency to agency and photographer to photographer. Every agency and photographer selling stock images should have a legal or license page to explain these terms and any others that they use, if they don't you may want to move onto another site. Be aware, read all the information, and know what you are buying.
