Ask Mr. D – On Tracking Ads by Bill Daugherty

Dear Mr. D,

Increase traffic to your business

I am a retired postal worker. A couple of months ago I decided to supplement my retirement check by making a few extra dollars on the Internet. I figured that if I could making an extra \$500 per month, my life would be a lot easier.

I joined an affiliate program and started advertising. The first full month I made a little less than \$50. The second month I made exactly \$50.

Can you tell me how I can drive this income to my \$500 goal?

Signed,

Stalled At \$50

Dear Stalled At \$50,

The 3 keys to increasing your Internet income are: traffic, traffic and traffic.

To increase your affiliate commissions from \$50 to \$500 you need to generate 10 times more traffic than your current rate. Now, the question is how can you achieve this increase in traffic?

Start by tracking your ads. You can find free ad trackers by going to any of the major search engines and conduct a search for "free ad trackers."

By tracking your advertisements, you can eliminate the ads and the ad venues

that are weak. This will free up your time and money to concentrate on your more productive advertising efforts.

It will take a little time, but by trying

new ads and new ad venues, you will begin to increase your traffic and your income will increase.
