**Internet Marketing, Fact Or Fiction?**

by: **Adam Buhler**

I'm sure you've seen it before, your inbox overflowing with promises of making millions in the span of a few weeks. If your like me you have these "opportunities" safely tucked away in your recycle bin faster than you can say "Spam",

but all the while in the back of your mind is that ever-present question, "What if?".

What if hidden among the tidalwave of "Get Rich Quick" hype is the one chance for you to turn your life around and take control of your future?

I won't lie to you, almost all of the garbage floating around the internet today is just that....trash!

I must inform you however, you CAN make your living online if you are willing to roll up your sleeves and get your hands dirty.

There are two main factors in the the prejudice of internet marketing,

[Lack of effort] This is the number one killer of the american dream. Society as a whole would like to believe that success can be achieved with little or no effort on their part and that running a home business consists of firing up their computers and laying around all day!

[Bad experiences] Another large contributing factor in the fear of internet marketing is people who have had less than desirable results from their own efforts. one thing holds true and that is that bad news travels twice as fast and twice as far as good. While a good deed is forgotten a bad experience never is.

If you are serious about going into business for yourself, you CAN be successful.

## Internet Marketing, Fact Or Fiction?

I know because I've been doing it for two years now and quite frankly I am disgusted with the dark cloud that looms over the phrase "Internet Marketing". This reputation is largely derived from the many scams out there, these are your everyday "Get Rich Quick" schemes claiming to make you millions with little or no effort on your part.

Sadly, many people fall victim to these scams due to their desire To make money with no effort on their part.

I recently had the opportunity to talk via email with one of my visitors, And when asked what she was looking to gain from my services she stated That she wanted to find something where she could make money while doing very little work.

It all comes down to one final truth....You will get from Internet Marketing What you are willing to put into it. If you dedicate your time and efforts you can reap huge rewards however, If you come into it

with the mindset of getting something for nothing All you will end up with are regrets.

The world of Science fiction is a vast one. Millions of fans enjoy their science fiction collection for many different reasons. For example, a science fiction DVD may have tremendous monetary value, sentimental value, or just the value of enjoyment. Whatever the reasons science fiction fans have raised the popularity of owning their own science fiction DVD.

One extremely popular reason of watching science fiction DVD's is that they can be watched over and over again. Some of your favorite television show episodes have now arrived on DVD, which means you can watch your favorite show as many times as you want to, commercial free. Furthermore, fans of science fiction take great pride in owning every science fiction DVD available in a certain category, movie, of a specific actor, or of a television series. They make for great bragging rights when you attend your next sci-fi convention.

What is great about a science fiction collection is that it can be steadily built, with very little monetary investment for the most part. Now do not get me wrong, some specific science fiction DVD may cost you quite a bit of cash. However, for the most part, you can build an extremely vast collection without much of a dent in your wallet. For example, if you are looking to build your science fiction collection or

start one for the first time, you could consider looking online to find a cheap science fiction DVD.

There are many places you can look, for example, there are complete websites available to you on the internet that caters only to science fiction fans and movies. Furthermore, you can save even more money by visiting auction sites such as eBay or find a wholesale distributor to save money on a science fiction DVD. Some other places you may be able to save big money on your science fiction collection is in general merchandise stores such as Wal-Mart or K-Mart.

You do have the option of shopping at specialize movie stores; however, you should expect to pay a little more money at these places. You could also find a cheap science fiction DVD in a video rental store. It may be a previously viewed movie, but it will still be cheaper than buying elsewhere.

Many fans looking to buy a science fiction DVD, may not even watch the DVD at all. It may be a special part of their collection. After all, many things are worth more when still in the original packaging, in mint condition, and has never been opened or used. This gives the science fiction more trading and selling power. Trading a science fiction DVD is a popular activity in the collecting world. Perhaps one person has a real desire to have a DVD that is in your science fiction collection, while they may have something of equal value that you have been looking so hard for. This again, gives you trading power, especially if the science fiction DVD is in good to mint condition.
