Learn To Teach English As A Foreign Language

By John Davison

Perhaps you are at career crossroads, and you are looking for a more fulfilling and interesting way

to utilize your skills. If you are interested in teaching and traveling to exciting and interesting destinations, then you might want to consider teaching English as a foreign language abroad. English is the most commonly spoken language in the world today, and desire of those in other countries to learn the English language is growing at a steady rate. Therefore, there is a demand for bright and motivated individuals to teach conversational and written English to those abroad, both young and old.

The benefits of teaching English as a foreign language in another country are numerous. Not only are you providing a service to those who desire it, but you will benefit from those you teach as well. In choosing to teach the English language in one of several locales such as Southeast Asia, South America, Western Europe, and the Middle East, you will learn about new cultures and traditions. You will have the opportunity to shatter stereotypes regarding our own American culture. You will have the opportunity to do a large amount of traveling to neighboring nations. You will become self-reliant and self-assured on your journeys, and you will certainly make many new friends.

Teaching English as a foreign language can have many benefits for your career as well. Your exposure to new surroundings and your experience teaching will garner you excellent communication skills. You might find that your prior work experience coupled with your new teaching venture will provide you with a considerable amount of career options when you have completed your teaching duties. You will have opportunities to change your life and career on a global scale. Because the demand for instructors to teach the English language abroad has increased, so has the demand for more qualified individuals to apply. Language schools are highly discriminating when it comes to hiring new instructors. That is why it is important to get your certification in TEFL/TESOL (Teaching English as a foreign language/Teaching English as a second language) if you intend to apply for a position with a language school. Certification demonstrates to potential employers that you are serious in taking on this challenging new career. Certification can be achieved by taking courses at a number of campuses nationwide, and there are even certification course programs available online. Receiving your certification for teaching English as a foreign language will certainly prepare you to be a more effective and successful teacher by instructing you on how to teach grammar, how to teach vocabulary, how to teach speaking, how to teach writing, how to motivate your students, how to manage a classroom, and

how to construct lesson plans. Receiving your certification will also better prepare you for a move abroad, which can be daunting and stressful. Having the peace of mind in knowing that you are fully qualified to perform your new job will help to alleviate some of the stress in throwing yourself into an entirely new country and culture.

Teaching the English language to students in foreign nations can be exciting, fulfilling, and highly enjoyable. It is a mutually beneficial experience for you and your students. Not only are you representing your own country and culture, and imparting your personal knowledge of the English language and your culture onto others, but you are also learning about other individuals and their various experiences and traditions. While broadening your mind and experiencing something totally unique, you are also embarking on an exciting new career, one that has the opportunity to open many new doors for you professionally.

Teaching English As A Foreign Language: A Life-Altering Challenge

By Michelle Simmons

If you're considering teaching English as a foreign language, congratulations. You've chosen a career that many people don't attempt. Although it's one of the most rewarding jobs imaginable, the truth is that it can be a massive commitment. Of course, if you have a passion for it, then the work involved will be a true pleasure.

There are two basic ways to teach English as a foreign language. One way is to do so in your home country. All over America and other English-speaking countries, there are English classes offered by the government and by various learning institutions. These classes are designed to help non-native English speakers learn English in a fast-paced, student-centered environment. Programs like this are great for EFL teachers who can't make the commitment to travel abroad.

The other option is to teach English as a foreign language in another country. This is where the majority of teachers end up, since there is a much greater demand for teachers in the students' native countries. Teaching abroad is also considered more of a challenge because of the travel required—most teachers are expected to spend at least a year at a time in the country where they are employed.

With the spread of English worldwide as an essential tool in business communication, many foreign students are ready to learn— and they're not always children. Corporations and businesses also hold English classes for their employees who must communicate overseas. If you're not afraid of travel, the field of job possibilities is nearly endless.

TEFL

The first thing you'll need to obtain to teach English as a foreign language is a TEFL certification. This gives you the qualification to teach in a classroom and covers the basic structure of English grammar. There are several ways to become TEFL-certified. Many language schools offer one-month certification courses. Colleges and universities can also provide TEFL certification.

Although it is possible to get a job teaching English as a foreign language without certification, your chances of employment are not nearly as good. As more and more people become certified, competition for the good positions is increasing. We recommend TEFL certification for anyone who is seriously interested in this career.

Finding a teaching job

Even if your eventual goal is to teach English in your home country, you may want to seriously consider teaching abroad at first. Most teachers start out with at least a year in a foreign country, and the experience gained in doing so is nearly invaluable.

While we don't necessarily recommend heading to a foreign country to find a job, you can certainly do so if you're feeling adventurous. However, there are plenty of resources online that can help you line up a position before you go. Many TEFL certification courses offer job placements for teachers who are interested in going abroad, and these can be a wonderful resource.

Whether you're in a foreign country or on home soil, teaching English as a foreign language can be a challenging field. Be prepared to work hard and devote a lot of time to your career, especially at first. In exchange for your efforts, you'll be experiencing firsthand one of the most rewarding and interesting jobs there is.
