**Why I chose web business at home.**

**Why I chose web business at home. by Radito Dizon**

Having web business at home is one of my dreams. I am Radito Dizon from the Philippines and I'm a physician by profession and I do love my work. However, being a clinician guarantees a lot of stress.

I've heard a lot about internet marketing and it is only recently that I've decided to give it a try.

Some of the reasons I've chosen web business working at home are the ff.

1. You only stay at home.

That means you manage your own time, no uniforms to wear, no clock to beat.

You are not going to pay for any office space.

2. No inventories no make especially if you join an affiliate program and you only engage in selling ebooks.
  3. No costumers to talk to. Everything is almost being done thru internet.
  4. Does not require a huge investment.
  5. You can work part time or full time depending on your availability.
  6. No employess to deal with.
- I sure there are other good reasons for me to join this lucrative business.
