Mobile phone– PC data synchronization by Daniil V Voronov

Mobile Navigator is a worldwide known synchronization tool for your Siemens/Ericsson mobile phone and PC.

We celebrated our new generation software by supporting Siemens S55/56/57 first! Great mobile deserves great software..So here it comes with revolutionary new plugins system that provides different functional extentions for application.

It's like your own contacts database that has handy W–RW device.

You can operate as much information as your HDD provides – your mobile phone will keep only important information and collect updates every day with you.

No data leaks from your mobile are fatal – you always have archive information on your PC! No efforts to operate phone data – "one click" operations via MN quick navigation are much more comfortable!

Various features cover all information you need to save in archive, operate in continuous time or find out.

Mobile Navigator supports personal archives of SMS messages, address book entries,organizer entries,call records, logotypes & melodies, themes etc. with easy and functional operating via PC interface.

Synchronization with MS Outlook is available!

New models are supported by downloadable plugins.

Possibility to personalize your phone via creative editors for themes and files upload and much more!

Mobile Navigator helps you to manage and organize dozen types of information with greater efficiency!
