**Motivational Art Prints**

**By Shawn Campbell**

There is no reason why your home office should only be characterized by books, papers and gadgets. Taking the time to personalize your work space can have immense benefits for your state of mind. In particular, surrounding yourself with motivational art can fuel productivity and inspire you to achieve more. Decorating your home office walls with the beauty of art may transform your mood, and printed words of inspiration may transform your business!

You may not be aware of it, but there is an enormous array of motivational art available. So, how do you find the perfect piece that complements your work space? Start by thinking about what you would like your office to say about you. For example, if you are the type of person who proudly maintains an organized and highly efficient office, you may want to choose a piece of motivational art that supports your belief in discipline or excellence. Motivational art prints come in a variety of designs, but each has a unique message. Choose a message that says a lot about who you are and what you believe in. When John Taylor quit his job after 15 years of service, he was just a little apprehensive to say the least. He had enjoyed his role as account manager for a large advertising firm, and had acquired a great deal of knowledge and experience. Making the decision to leave his job was not an easy one, but John instinctively knew it was time to pursue his life long dream of starting his own small marketing firm. When John said his farewells, he received many good wishes and wonderful presents, but one gift stood out from the rest. It was a beautiful poster of a triumphant mountain climber standing atop a majestic mountain, and below were the words, "He who is not courageous enough to take risks will accomplish nothing in life". For John, the words rang true and soon the poster became the focal point of his new home office. During that first rocky year, whenever John felt unsure of his decision to leave a life of stability, he looked up to that poster and reminded himself of the necessity of having courage in life.

If you are just moving into your new home office space, or if it is high time that you redecorate your existing one, consider the addition of motivational posters. The variety of posters available guarantees that you will find one that speaks to you. Embellish your office with a stunning image and change your mentality with words of inspiration.

Shawn Campbell is an online art connoisseur who has been writing about art prints and researching artist biographies since 2000. Most of his writings can be found at Aaron Art Prints (

### **Affordable Paintings: Art Prints Buying Guide**

#### **By Joel Walsh**

The fastest way to bring beauty and style to a room is to put up prints of beautiful paintings. Here's what you should consider:

#### Painting Prints Price Range:

Expect to pay somewhere in the neighborhood of \$50–\$500 for an unframed print—anything less than \$50 is likely a poster. You should expect to pay a similar amount to have the print framed—note that many prints are designed to be exhibited without frames.

Before art prints were sold online, the only way to get them was through galleries or museum shops, which had to charge a large markup. Nowadays, art prints rarely cost more than a few hundred dollars, and it is possible to find good-quality prints for under \$100. Still, those lower prices generally come on prints that have been put on sale. Expect to pay more for perennial favorites like Van Gogh's "Starry Night".

#### Selection

There is at least one print of every painting or photograph on display in a museum anywhere. Thanks to the internet, you can find the right art print among the tens of thousands in existence and have it sent to you, regardless of where the original is located. Since websites will let you browse thumbnail images of the artwork, it's easy to find a particular piece even if all you know about it is the name of the artist or even just the time period in which it was created.

#### Painting Print Media

Prints are available in a variety of print stocks.

### Prints vs. Original Paintings

If all you're interested in is a picture to decorate your wall, rather than in collecting, prints are a better value than original paintings. Here's why:

\* Expense. Creating an original work of art generally takes weeks. If you had to employ someone for several weeks or several months, how much do you think it would cost at even a modest salary? That's why original artwork generally costs at least thousands of dollars. In order to have a real chance of your work of art having investment value, you need to buy the work of an artist who is moving up in the art market.

\* Questionable investment value. Original artwork only has investment value if the price goes up eventually. Very often, the price does not. In short, if you're interested in investing, buy stocks—it's a safer bet. Only buy art because \*you\* value it.

\* Knowledge. You need to be very knowledgeable about what you are doing. Make no mistake: there's plenty of fraud in this business. There is also plenty of wishful thinking on the part of art dealers when it

comes to a work's long-term market prospects.

Ready to make your home more beautiful with prints of great paintings? You're already in the right place: the internet has numerous websites offering an unbelievable array of art prints. Start looking now.

Joel Walsh has written a buying guide for art prints at:
